### Asthalin Inhaler (Salbutamol)

The generic Salbutamol [inhaler](#) further called Asthalin inhaler comes from India and is manufactured by Cipla Ltd. It is available in the quantity of one, two and three inhalers. Ventolin is an asthma inhaler, which relieves acute symptoms of asthma. The inhaler contains salbutamol, an active ingredient which reduces the constriction in your airways which causes asthma. We also have in stock Asthalin Rotacaps which is used to treat the same indications.

[About Salbutamol Inhalador \(Asthalin Inhaler\)](#)

Bronchial [Asthma](#) is a chronic disease of the respiratory tracts which is characterized by the periodical narrowing of the respiratory tracts. The patient may not generally breathe because of this disease, the body gets less oxygen, and the Asthalin B attack occurs. It is a dangerous disease which may lead to the fatal outcome if the proper and well-timed treatment is absent.

[When is Buy Salbutamol Tablets Prescribed?](#)

Use Asthalin inhaler (Generic ProAir) precisely as it was prescribed for you. Do not use Asthalin Medicine (Generic ProAir) in more significant amounts, or use it for longer than recommended by your doctor. Discuss with your doctor about your risks and benefits of using Asthalin (salbutamol inhaler). When using the inhaler design for the first time, prime it by diffusing 4 test showers into the air, away from your face. Swing well before priming. Also prime the inhaler if you should not use it for two weeks or higher, or if you have separated the inhaler.
