[Trading With John](#) Legality of cryptocurrencies has been one of the major point of concern in India. It has kept several investors on a aspect where people suppose that investing in cryptocurrencies may put them in bother or they might even lose their cash. This is completely a hoax as investors have been concerned during this wonderful money multiplication process for a quite while.

If we tend to keep aside the ponzi MLM based projects in India or world and we choose the cryptocurrencies wisely, definitely there are no problems as such. Still, for people who are still worried about this upcoming vibrant market, I can attempt to hide all aspects of legalization of cryptocurrencies in India.
