

SETTING UP IN BUSINESS?

It always pays to talk to a professional accountant

START-UP BUSINESSES

Contrary to popular belief, we don't just crunch numbers for clients. In fact, our knowledge and expertise have helped business owners, like you, avoid many costly pitfalls when first starting up; and we continue to save them money in the long term too.

Research shows that only four in ten UK-based start-ups survive their first five years in business. And worryingly, Glasgow is ranked among the bottom five towns or cities for start-up survival rates.

Improve the chances of your new business succeeding and get in touch with Evolve for help and advice.

WE CAN HELP YOU AVOID SOME OF THE COMMON MISTAKES BY:

- ✦ Helping you develop your business plan.
 - ✦ Helping you choose the best business entity (sole trader, limited company, limited partnership, etc.)
 - ✦ Establishing efficient bookkeeping systems.
 - ✦ Advising on your borrowing to ensure it is cost-effective.
 - ✦ Recommending payment options for acquiring any essential fixed assets (e.g. office furniture, equipment, vehicles, etc.).
 - ✦ Figuring out your tax responsibilities and planning your deductions.
 - ✦ Advising on tax-efficient remuneration.
- ... and more.

"As much as you think you can do your business accounts yourself, investing in a professional is definitely worth it. You can't put a price on peace of mind, but you can put one on your time – what takes Evolve an hour to do would take me three. This means I have more time to spend doing what I do best."
