The Bride & Groom

There will be many natural, candid moments captured of you both throughout the day, however some bride & groom only time at every wedding results in something truly special images of you both. You can still be natural, relax & talk to each other, leave the rest to us.

The Real Wedding Day

A photojournalistic style & approach to photography is what we most enjoy & much of your wedding day will be captured & presented in this way. The preparation we make before every wedding is what makes the difference & ensures that we are in the best position to capture the action & going with the natural flow of the day.

The Details

All the fine details you have spent weeks & months before your wedding day choosing & getting just right that makes your day so personal & unique.

The Group Photos

Our pre-wedding meeting preparation & my experience in organizing on the day means any group photos you request do not take up more time than necessary, look fantastic & you still spend your day relaxing & enjoying the events with your family and friends.

A Quality Photographic Service – from start to finish

I have a client focused approach to my service & work closely with all our couples to ensure every aspect of photography is discussed, explained & planned well in advance of the big day. This ensures each of our clients has peace of mind that their requests have been noted & that all the special moments will be captured. Our pre-wedding meeting at the venue/s around 6 weeks before results in us having a plan of the day's events plus you can relax in the knowledge that we have it all covered.

We will also work closely with your venue/s too, this ensures everything runs smoothly on the day & we keep to any set times, such as when the wedding meal is served. Attending the church rehearsal gives us the opportunity to talk with whoever is taking the ceremony & often results in being given access to areas not normally available. Ultimately, we want to be as unobtrusive as possible throughout your wedding day & for you and your guests to be unaware of our cameras.

There will be times where direction is required, such as a group photo, which means quickly & effortlessly organising to get the perfect composition & lighting. Most importantly this is all done with a sense of fun, which keeps everyone relaxed & a natural part of the day.

You will not be kept waiting to see your photography either. A few days after your wedding I will write a short blog about your day & include around 20 teaser photos, which bride & grooms, plus all the family and friends love to see. The rest of the photos will be fully processed and ready to present to you at a first viewing appointment within 2 weeks or when you return from honeymoon. A full day coverage from Bride getting ready to First Dance typically results in around 500 presented photos and your USB Folio with all the high resolution / print quality photo files will be ready too, so you can be showing off your stunning photography to family & friends straight away! Your website gallery with print / download facilities will also go live at this point for family & friends to login into.

If you have chosen an album option, I can help & give advice on making choices, or I can have some draft page designs ready for you to view and make any alterations to. All album page designs are created by myself with a choice of cover options all included.

- ✓ **Pre-wedding meeting at your venue/s to confirm all the wedding day events**
- ✓ **Second Photographer Assistance by my wife Sue – the S in the sdmimages**
- ✓ **All photography checked & processed fully before presentation.**

How to make a booking

As we guarantee our option prices at time of booking Bride & Grooms are now planning up to 2 years in advance, so the first thing is contact me to ensure we are available on your day. You can call me for an informal chat, I can answer any initial questions you may have & we can complete your booking via email. Even better is to book an appointment here in Chandlers Ford & I can cover everything in much more detail, present more of my work & you can see many examples of albums and other products we have created for our previous clients.

You also get to meet Sue my wife & second photographer plus if you like hound dogs you can say hello to Solo the Hungarian Wirehaired Vizsla too. Although we hope you proceed with a booking at this stage, you are under no obligation & decide in your own time if we are the photographers for you.

We have so many great reviews on Facebook for you to see & around 40% of our bookings are from family & friends from previous weddings attended. It's almost a little embarrassing now with the brides parents from a previous year having to now call me again to pay the deposit for their second daughters' wedding. I can now empathise with all parents who have 2 or more daughters.

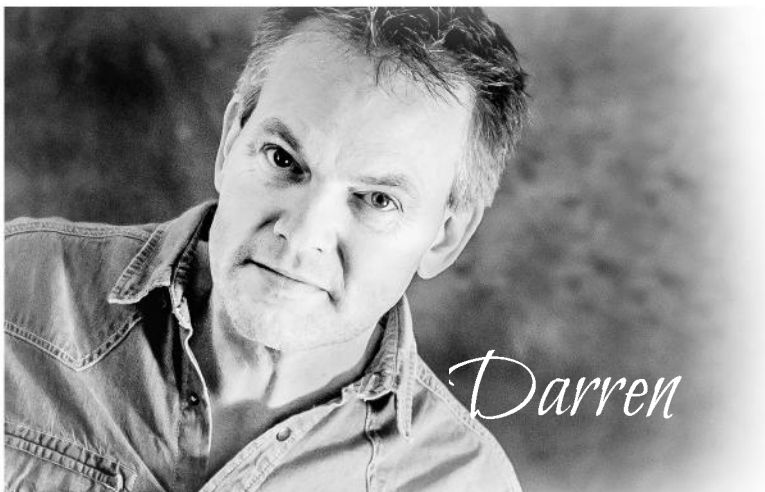

A £300 deposit along with signed booking forms confirms your booking with the balance of your chosen option due 6 weeks before the big day around the time we meet up for a pre-wedding meeting to confirm all the finer details. All payments can be made by Bank Transfer, Debit or Credit card.

Here are the contact details again & we look forward to hearing from you & discussing your wedding day photography.
