# Hello You!

Photo by Art/Photography by Sydney Rasch.

It's so nice to meet you! I can tell you first off, we are going to have so much fun planning your wedding together. Wedding planning is not easy, but if you have the right planner by your side, it can be absolutely stress-free. This is the prelude to the most important day of your life and I want you to enjoy the next few months.

We start our process by getting to know one another and I want to hear all about the two of you, your love story, how you met, how he proposed...everything! Spill

all the deets! From there, we will work together to find your style and figure out what design details to use to express your love for each other. Once we know that, we can begin finding the perfect vendors for you within your budget. I will keep you organized all the way to your big day where I will be there to execute all of our hard work, so you can just RELAX and enjoy yourselves.

I cannot wait to get started! Get ready to have a blast and let's make this awesome wedding happen!

XOXO
