

Alginates Market Research Report - Forecast to 2023

Market Definition

Alginates are a group of naturally occurring anionic polysaccharides, obtained from brown algae cell walls. Alginates have potential application in biomedical and pharmaceutical sectors. Furthermore, they are also used in food products based on their thickening and stabilizing properties. They have wide application in the food industry and are used in the preparation of jams, jellies, and marmalades.

Market Scenario

Escalating demand for sweetened confectionery products has directly influenced the sales of gelling agents across the globe. Apart from the conventionally used thickening and gelling agents, the sales of alginates have been continuously witnessing a surge. The demand for potential low-cost thickeners and stabilizers is also driving the market of alginates across various industries. Alginates are used in personal care products and hence, the market is witnessing huge demand.

Key Findings

- May 2018, based on the rising application of alginates, French biomarine group Algaia announced the expansion of their production and innovation capacity with investments in marine ingredients and seaweed extracts.
- Europe is experiencing a high demand for alginates based on ongoing researches on the derivatives of alginates.

Regional Analysis

The Global [Alginates Market](#) is segmented into North America, Europe, Asia-Pacific, and Rest of the World. North America is dominating the alginates market followed by Europe. The U.S., in North America, is experiencing a high demand for alginates owing to increasing demand in food and beverages. Moreover, increased demand for alginates in personal care products is further supporting the sales of alginates in the global market.

Key Players

Some of the key players profiled in the *Global Alginates Market* are

- Ingredients Solutions Inc.
- Algaia
- Marine Biopolymers Limited
- Dohler Group
- Danisco A/S
- FMC Corporation
- Kimica Corporation
- IRO Alginate Industry Co. Ltd.

Intended Audience

- Alginates manufacturers
- Stabilizer manufacturers
- Pharmaceuticals
- Retailers and wholesalers

The Global Alginates Market is segmented into the following regions

Europe

- Germany
- France
- Italy
- Spain
- U.K.
- Rest of Europe

Rest of the world

- Brazil
- Argentina
- South Africa
- Others

The report for Global Alginates of Market Research Future covers extensive primary research. This is accompanied by a detailed analysis of qualitative and quantitative aspects by various industry experts and key opinion leaders to gain deeper insights into the market and industry performance.

About Us

At Market Research Future (MRF), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRF team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.

In order to stay updated with technology and work process of the industry, MRF often plans & conducts meet with the industry experts and industrial visits for its research analyst members.
