## BURGERS

### Hawksmoor Hamburger

100% well-loved Longhorn, including small nuggets of bone marrow. With Oglesfield cheese or Colston Bassett Stilton.

### Kimchi Burger

Created after a trip to Seoul. As one national critic put it, "pop art in a roll".

### Pork & Squid Burger

This time a burger-shaped lightbulb moment came whilst eating squid stuffed with spicy pork in Vietnam.

## LOBSTER ROLL

25.00

### Tokyo

A light but spicy version made with yuzu (a Japanese citrus), Kewpie mayonnaise and sriracha.

### Wiscasset

Based on the rich and decadent rolls at Red's Eats in Wiscasset, Maine. Warm with melted butter, very different to the usual mayo-heavy Maine version.

### Singapore

Our version of Singapore Chilli Crab, but made with lobster. In a roll.

### Steak Sandwich 18.00

Chargrilled rib-eye, soft Graceburn cheese (made in Bromley), anchovy hollandaise, watercress & plenty of fresh horseradish on sourdough.
