PA system hire

We now also offer to perform with the option of a PA system which delivers excellent clarity of sound of up to 300watts. This is an industry leading, state-of-the-art system using studio quality pickups, and is ideal for a larger venue or audience. Adding the PA to our performance costs £100. You may also wish to use the PA at no extra cost for any speeches during the time we are booked at the venue.
