

PRICE GUIDE 2020

Capella

Our popular photographic scheme, coverage begins for pre-wedding photography at either the home or hotel, and further extends to the main venue, with a final visit to the reception.

The plan includes all speeches with many additional dance and party shots late into the evening.

An optional final nocturnal session within the grounds of the reception is recommended to add diversity & creativity to the day's events.

Couples select their favorite sixty or eighty images to be placed within a storybook style album, chosen from many hundreds of pictures taken throughout the day.

All albums are carefully designed bespoke original works, preview designs are sent for client for approval before we finally go to print.

Additional images can be added to the album if required at further cost.

Capella album with multiple size prints

60 images....., £1,295.00
