## Wedding Books

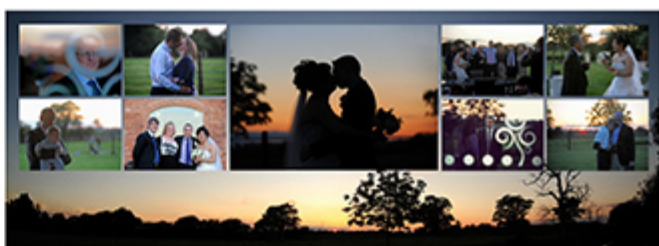

As part of my Ultimate & Supreme Wedding Packages you will receive a bespoke Wedding Book designed by me using the world's finest Wedding Book creator Graphistudio of Italy.

I design your bespoke Wedding Book from beginning to end using the most technologically advanced programmes to create a memento for you and your future generations to keep forever.

Before sending the final designs to Graphistudio in Italy you get to proof everything. If you feel that you would like some images moved or the design changed - no problem - my guarantee to you is to create an amazing Wedding Book that you will fall in love with.

Having you involved in the process like this is almost unique to Luis Holden Photography - my aim is simple - to make you ecstatic with the amazing story of your wedding day!

As well as having input on the design you will also have a choice of amazing covers to choose from.

I offer a wide range of cover options from traditional Italian leather, to the spectacular look of metallic and transparent covers, or even elegant personalised soft silk.

I invite you to discover the numerous design and cover possibilities through the pre-wedding consultation that you will receive. Please feel free to contact me for a no obligations chat - I would love to hear of your future plans!

## High Resolution Wedding Imagery

I like to keep my fees completely transparent - there are no hidden charges and definitely no hard sell of extra products before or after your wedding.

For this reason I include an archival quality disc of all your edited high resolution wedding images with all of my Wedding Packages. This way you have complete control of reprints for your friends, family and yourselves!

Your disc will be presented to you in a beautiful leather case with two of your wedding photo's - one on the cover and one on the inside. The disc itself will also be printed with one of your photos on and contain all your edited high resolution imagery with a colour and black and white version of each.

I realise that I work differently to a lot of photographers in this respect but it is my belief that my clients should have full access to their wedding imagery - after all, it is *your* special day!

## Online Gallery

You will also have access to a password protected online gallery to view your stunning wedding imagery from.

You will receive a set of 'link cards' to send out with your wedding invitations or to place in your venue on your big day. This way all of your friends and family will have access to your to view and print your beautiful wedding photos.
