

Time Out Recommended UK and London Wedding Packages 2012

We have a range of packages starting from £745 listed below, that we believe to be some of the most versatile and competitive out there.

All packages from "Silver" upwards include ourselves David and Joanna as your photographers, to make sure we get the best shots possible. Most services tend to be a single photographer, and not always the one you thought you had booked! Having two experienced professionals substantially increases the range and possibilities of the images captured. We can literally be in two places at once.

Not all wedding photographers are created equal, and they can't be found like a best price on Amazon! So if you are shopping around, and of course we hope the shopping stops with us, ask to see at least five or more recent weddings. ("the proof is in the picture...") Ask to speak to previous couples. We would!

We have put our most popular package "Elegance" first, and our second most popular "Platinum Plus" last, everything else is in price order.

ELEGANCE - Two photographers. All day coverage of up to eight hours, from bridal preparations to past the first dance, and all the large full resolution copyright free files from the day. These are fully edited across a set of DVDs (usually three) with an extra folder of smaller versions for emailing, facebook, social networking etc. Files are produced using a wide range of professional lenses and cameras that we bring on the day. You can print at any size, and each image is individually edited through two separate programs. Typical image count is between 600 and 1000 plus files. Of course with copyright free "digital negatives" you can create all your own display options and albums in the future, excluding those only available to the trade (We are happy of course to design fantastic "storybook" albums as extras if you wish as well) Included is our usual music slideshow DVD of the entire day, and an optional complimentary studio or location shoot. We feel it's important to remember this is an investment and that you are not just buying time and files when you book us, you are buying our personalities, track record, and sense of fun too! £1250

FLEXI - this is our most basic but flexible package - it's £125 an hour for David and Joanna in attendance (minimum 2 hrs) and includes coverage of ceremony and formal shots, plus extra creative stuff thrown in – i.e. latest coverage trends – reportage, advertorial, classic etc. Included we give you a souvenir music DVD movie slide show set to music of all the shots taken, and a CD of proofs from which you can make choices at your convenience. In these we show you colour, black and white, sepia, special effects etc so you get an idea of the possibilities available. You can then order as many or as few prints or albums as you wish, or perhaps take advantage of our image buyout options. Others charge a premium price for a music DVD, with FLEXI and all our packages it is included as complimentary.

SILVER - Two photographers. Pre ceremony preparation shots, ceremony, groups & formals, reportage shots, classic and advertorial styles, reception/party/celebration shots (max five hours coverage) Souvenir music slideshow DVD. Proof CD. Twenty five 10 inch by 8 inch presentation prints, or Fifty 6 inch by 4 inch prints of your choice - £745
