

Tattoo Removal

Tattoo removal in half the time!

Fewer treatments, faster recovery time, and greater results are achievable with PicoSure's ground-breaking picosecond technology.

PicoSure targets unwanted ink more effectively than ever before, successfully removing difficult ink colors, such as blues and greens, as well as previously treated tattoos.

Facial Revitalisation

Are you constantly trying to cover up acne scars, sun/age spots or discoloration?

The Picosure Laser treats fine lines, uneven skin texture, acne scarring, age spots, sun spots and pore refining.

With little or no down time you can pop in during your lunch hour and be back in the office with time to spare!

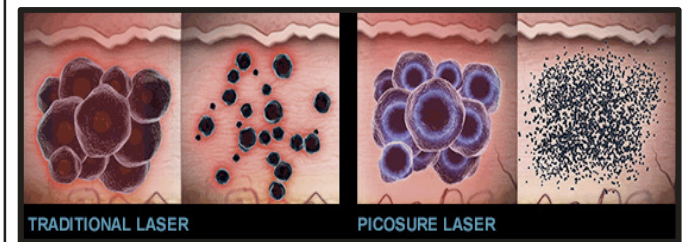

Picosure Laser

PicoSure is the world's first and only picosecond aesthetic laser cleared by the FDA.

Recognised as a breakthrough in tattoo and sun/age spot removal, PicoSure will help you achieve visibly clearer, ink and spot-free skin faster.

Even difficult ink colours such as blues and greens, as well as previously treated tattoos, can be removed in fewer treatments with better clearance and improved recovery time.

Permanent makeup coming soon!

Permanent Cosmetic Tattoo procedures offered by First Impressions include permanent lip liner, full lips, eyeliner, eyebrows, beauty spots and areola.

There are many reasons for people to consider permanent cosmetics including physical and visual limitations, busy schedules or it may be a little assistance in showcasing your features - making your lips appear slightly fuller or more even, opening and outlining your eyes with liner or eyelash enhancing or shaping and evening out eyebrows that may be a little sparse or light OR it may be that you just want a little more glamor and wake up looking amazing every morning. Call Mandy to discuss your options and book a free consultation 0427 731 176 / 9639 3922.
