THE ORIGIN OF SQUEEZE IN

The Squeeze In "motherhip" in Historic Downtown Truckee, California, has been serving guests the "Best Omelettes On The Planet" since May, 1974. The **Young** family, when daughters **Shila** and **Kay** were little girls, would travel from Reno to Truckee regularly to wait a half hour to get in, then nosh and enjoy the fun writing on the walls.

THE DREAM THAT BECAME REALITY

As the kids got older, **Gary**, who was in landscape construction, and **Misty**, who was in marketing and public relations, would dream and talk about "what would we do if we could do anything together" and the answer always came back: "the Squeeze In." That dream became a reality in 2003 when the opportunity of a lifetime showed up and the **Youngs** put everything they could scrape together on the table to buy the Squeeze.

THE EXPANSION

After four years of really intense work serving guests and developing associates and systems, the **Youngs** and their new business partners, daughter, **Shila**, and son-in-law **Chad Morris**, opened the first location outside of Truckee. Throughout the difficult recession in 2007, the family built and believed in the Reno location and on February 1, 2008, at the crest of the economic downturn, the doors swung open for the new restaurant! The demand in the originally tiny space at the northwest Reno Squeeze was outrageous, with waits of over 45 minutes just to get in. 12 days after opening, the lease was signed to blow out the wall and create the "Wayne's World" dining room, named, aptly, not after the family's favorite old school movie, but after the amazing construction superintendent. Then came **Bobby Flay**!

THE FOOD NETWORK!

In December, 2009, the Food Network set the family up: They said the Squeeze had been selected to be part of a Food Network special, "For The Love of Food," to be aired on Valentine's Day. They said it was going to be a three part deal, featuring a breakfast restaurant, a lunch place and a dinner place and the Squeeze was the breakfast place! The family was stoked and planned a hippie "Love Fest" for the Food Network cameras!

The Food Network showed up with all their production people, their lights and HD cameras and release forms, and the omelettes started flying! When **Bobby Flay** walked in, the whole family was flabbergasted and the Squeeze's top hippie, **Misty**, was shown flapping her wrists on national TV. Wow! What a wonderful thing that was. The Squeeze has now served guests from all over the world who saw the show and came to see us! You can see **Bobby's** signature on the wall at the Northwest location.

SQUEEZE EXPANDS AGAIN!

Enjoying the Throwdown boom, the Squeeze began to think about expanding again. But first the FAMILY expanded when **Shila** and **Chad** had twins, **Emerie** and **Wesley** in September 2010! Then we opened a third location in south Reno in April 2011! This is the biggest restaurant, comfortably seating up to 135 guests at once, inside, outside and in our Wayne's World 2 dining room. With church pews in the waiting area, eclectic art, hand-me-down dining tables throughout, and even an 1800's era family piano, the south Squeeze is just as cool as the original location.

THE PRESENT AND FUTURE

Who knows what's next for the Squeeze? One thing we know for sure: If there's a way to make your experience in our house better, we'll do it. If we can improve the quality, the service, the experience, we will. We're all about getting better every day, and making sure our guests are the focus of everything we do. Thank you for being our guest, we truly appreciate you.

With Love,
Squeeze In

OUTTA SIGHT OMELETTES

Omelettes are made with four eggs and ingredients are sautéed in a special recipe wine sauce, served with home-style fried spudz, honey wheatberry toast and your choice of our signature sauces: housemade creamy mushroom, tomato pesto or cheddar cheese.

All omelettes come with bottomless toast and sauce – have as much as you want!

SUB a fruit cup for your spudz (and save 320 calories!) or SUB a 1/2 order of biscuits and gravy for 1.49

HOW MANY OMELETTES????!!!

According to heavy duty statistical analysis and good old number crunching from the talented folks in the Math Department at the University of Nevada Reno (Misty and Shila's alma mater), **Squeeze In offers 107,338,340,350,157,118 different possible omelette combinations**, which is approximately 107 quadrillion. The 18-digit number reads as follows: 107 quadrillion, 338 trillion, 340 billion, 350 million, 157 thousand, 118 omelette combinations.

With this number of omelettes we could cover the entire surface of the earth approximately 40 times (both water and land). That's alotta omelettes...
