your last minute getaway

Sandbank & snorkeling cruising trip

Half day & Full day

A seemingly uninhabited and quiet sandbank in the ocean suddenly comes to life with birds flying overhead and ghost crabs scurrying across the golden sands.

Relax on the sandbank, listen to the bird life around you and the hush of waves lapping against the shore. For the more active discover Maldives amazing underwater life around the sandbank. Enjoy a drink or a snack onboard our safari boats and sail back slowly and gently to Male.

Please wear adequate sun screen. Please remember reefs are fragile ecosystems. Please do not stand, walk on the corals or reef. Do not try to take any souvenirs from the underwater world. It is not safe to remove corals as it may be even poisonous and may hurt your hands or feet.
