About Dymas Services Ltd.

Dymas Service Ltd. Is a Calgary based incorporated company servicing both individual and corporate clients in financial management services. Dymas provides a wide array of services locally in Calgary as well as other services to companies in western Canada as well as companies around the world. The main services provided are bookkeeping, income tax preparation, and QuickBooks® training.

Having worked with numerous small business corporations in Alberta over the past 10 years, Dymas Services Ltd. has expertise on corporate bookkeeping and income tax preparation.

Company History

Dymas Services started in Calgary in 2004 as a 2 family partnership. The name Dymas comes from the two last names (Dyck-Mason) of the partners. The business focus was always geared toward financial management for small business owners, start ups, and corporations who are large enough to need an outsourced bookkeeper, but small enough not to feasibly require an in-house accounting department.

Because of the booming economy, Calgary was the perfect place to open up shop since small businesses are abundant. With an eye for detail and providing excellent benefits to their clients, Dymas has experienced gradual growth over the past 10 years.

As far as future goals, Dymas Services Ltd. Wants to continue providing exceptional assistance to small businesses and always maintain a small business feel themselves as a company. There are advantages to dealing with a smaller accounting or bookkeeping firm.

Dymas works with businesses not only in Calgary, but also has a significant amount of clients in the surrounding areas of Airdrie, Black Diamond, Okotoks, Chestermere, Cochrane, High River, and Turner Valley in Southern Alberta.

Bookkeeping Services Offered

Being it's that we have been in the bookkeeping business for 10 years now, we have picked up specialties in different types of bookkeeping. Are most common bookkeeping service is the monthly and quarterly bookkeeping packages we offer to our clients. People really like the service because it includes everything that they need done. For corporate clients, this means corporate income tax filing, GST remittances, payroll, and everything all rolled into one.

As far as basic bookkeeping services go, we offer account reconciliations for bank accounts and credit cards. This also applies to shareholder clearing accounts. We take care of accounts payable via vendor bills and we prepare and mail checks to the Receiver General. The accounts receivable is done through us in QuickBooks by entering invoices for each customer. We also record payments against accounts receivable when they come in.

We provide our clients with a legible and informative profit loss statement as well as balance sheet each time we do their books if they are done on a monthly or quarterly basis. Bookkeeping service includes some of the more complex general journal entries and vehicle mileage and entries.

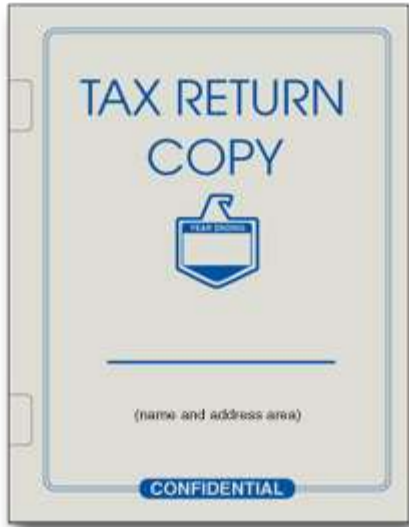

We have extensive experience in nonprofit bookkeeping for non profit companies such as schools, churches, and non-profit organizations. We can perform monthly cost allocations budgeting and fund management.

Our bookkeeping extends beyond the borders of Calgary and southern Alberta thanks to promote online bookkeeping. This can be done for anyone anywhere around the world so it works best for companies who adhere to Canadian tax laws and have Canadian tax liabilities. If you'd like to use our remote bookkeeping services and do not have any financial ties to Canada, we can still do that though the tax preparation would have to be done through another source.

Tax Preparation Services

As one of our bread and butter services, we offer income tax return filing to the Canada Revenue Agency for corporate and individual clients in Calgary. We understand the t2 corporate tax return and this has been a staple of our business since the very beginning. We

typically help corporate clients who are years behind in filing their income taxes. We can help your company find the best tax deductions allowed in Canada. We help our corporate clients find tax credits and tax rebates they may have missed otherwise which lead to tax breaks and tax savings. We can help for your company develop deferral strategies and find the most beneficial way to record and set up transactions through your company.

Of course for the sole proprietor we can do all these things as well. We work with both corporations and small business owners who are not incorporated. These include partnerships, hobby income, property

managers and landlords, and any income tax situation you find yourself in.

At Dymas Services Ltd, we make sure our rates are affordable and competitive with any other income tax company in our area. We've always been committed to providing top quality service through knowledgeable and experienced staff at an affordable price.
