

09.01.04 ibs 1218i ice carving CNC Machine

Our full 400mm gantry deep throat machine for deep materials used in ice carving. Full expanding bellow system protect the lead rails from ice contamination. Self lubricating using standard hi-performance 10w motor oils for maximum reliability in temperatures as low as -10 C.

IBS1218i ICE

LIST PRICE

000 Dhs/\$000

- IBS1218 CNC Spindle Cutting and Engraving Machine
- Expanding bellows rail protection system
- 7.5Kw / 10Hp air cooled spindle
- 1kw Yaskawa servo motors and drives [Japan]
- Max. Speed > 30m/min
- Cutting Speed 0>5m/min
- Operating Temperature -18c - +45c
- Original Ncstudio software control system
- Supplied with licensed UcanCam design software package
- Command G code*.u00*.mmg*plt
- DSP handset for manual shift
- Slotted drain table with supplied clamps
- Working area: X 1200mm * Y 1800mm
- Working area: Z 400mm
- Table Size: 1400mm*2300mm
- Packing Size 2600*2200*1280mm(L*W*H)
- Net Weight: 1000kg

Included bundle accessories:

control station

Applicable industry:

Ice block cutting and carving (see model ibs1218f for foam use)

Applicable materials for cutting and engraving:

Ice blocks and sheets
