

MAKING PARTIES AND
EVENTS A GREAT SUCCESS
WHATEVER THE WEATHER

MARQUEES FOR PARTIES,
SHOWS AND EVENTS
FOR HIRE AND FOR SALE

4M WIDE MULTI-SPAN MARQUEES

Marquees have long been the ideal solution for covering outdoor events. Nowadays new materials make them more affordable, easily transportable and quick and easy to erect

FUNCTIONALITY

This marquee is manufactured in 17 different sizes! And when you need a smaller or larger marquee at a later date, the multi-span option offers flexibility. For example, if you have purchased a 4m x 8m structure but now find that a 4m x 10m would be more suitable, you can purchase a 6m x 10m canopy (roof) and side panels to make your marquee bigger. It comes with a manufacturer's quality guarantee, a 7-day warranty.

Sidewalls are made up of linked 2m bays with each bay having its own zipped side panel, which can be detached to create an opening anywhere around the marquee. Each wall incorporates large Georgian style windows in its side panels. The vertical side walls mean it can stand flush with adjoining buildings to maximise floor space as required. The side walls also have 15cm/6" side skirts to promote better water run-off and drainage.

The frame simply slots together and each leg comes complete with a base plated that can be pegged, bolted or weighted, or fitted to base bars.

DURABILITY

The range of marquees is built to last. Note the key features and specification

- ✓ Full instructions and care manual
- ✓ 240g polyethylene UV-stabilised tarpaulin cover (canopy only)
- ✓ British fire-rated (BS5438 to BS7837)
- ✓ Heavy duty brass eyelets
- ✓ Industrial duty zips on the front and side entry panels
- ✓ Powder coated framework
- ✓ Strong 38mm tubular steel frame and 44mm corner joints. Tube wall thickness 1.2mm
- ✓ Georgian style window panels
- ✓ Locating/retaining screw at each joint for stability and strength
- ✓ Heavy-duty velcro and bungee cord
- ✓ 3 Zips on each end panel for 3 different size door entries

Height Dimensions: Eve Height: 205cm ; Centre Apex Height: 310cm

People Capacity: Standing Auditorium Style: 4x10m = 80 ; Seated at tables: 60 (4x10m)

Door Dimensions: Width 3.3m x Height 2m ; Structure Size: 4m x 6m (13ft x 20ft)

Safety Note: We recommend that you anchor your marquee during even the calmest weather conditions using a combination of tie down kits, ground bars and sandbags, and heavy duty pegs. Spare parts are available to keep it going for years ahead.
