Be warm, be safe, be environmentally-friendly with a TechnoHeater™

The Apollo

“This Is The Future Of Outdoor Heating”

Peter Jones of BBC TV's Dragons Den

The Revolutionary New Outdoor Heater – the Apollo

The **Apollo** boasts the ultimate in style, heating and illumination in one tough unit. The electric heater creates infra-red heat with a radius of up to 5 metres and stands at 190 cms. The light on the top of the heater is a 40-watt low energy bulb, and provides the same level of brightness as a 200-watt standard bulb.

Use it where and when you need both heat and light, on patios, terraces and balconies, or in garages, store-rooms, workshops, even on site! It heats people not the air or room. There's no need to pile on extra layers of clothing, and bring loads of equipment; you can work or relax outdoors when it's dark, in comfort, in front of it, and see what you are doing!

Simply move it into place on its heavy duty wheels and plug in! And it has a remote control for easy settings changes - all of your heating and lighting requirements are sorted when you have a TechnoHeater!

TechnoHeater™ operates with particularly low running costs (up to 85%), and cuts carbon emissions by 50%, compared with gas patio heaters.

Main Features...

- ✓ Latest carbon fibre heating technology
- ✓ Far-infra-red Instant heat with two heat settings - 1500W / 3000W*
- ✓ 80% cheaper than conventional gas and electric heaters (carbon fibre bulbs)
- ✓ PIR economy feature - Auto Stand-by mode motion sensor to monitor movement within 5m
- ✓ Power consumption - 3kW (1.6 kW USA) - only 15p/hour approx.
- ✓ An adjustable light to illuminate dark areas
- ✓ No groggy, tired feeling usually incurred with gas fumes from gas heaters
- ✓ Suitable for people with severe allergies and multiple chemical sensitivity.
- ✓ No emissions nor smell from dust, dirt, formaldehyde, toxic fumes from paint-coating...
- ✓ No harmful fumes, unlike most gas patio heaters
- ✓ Heats people, not the space or room
- ✓ Effective heating range of 5m at 110 degree angle
- ✓ Chrome grill protects the elements and is safe to touch – safe for children and pets
- ✓ Child-proof lock controls to stop meddling, if required.
- ✓ No more re-stocking of gas bottles. More portable than many gas heaters
- ✓ Safety Tip-over & Auto Reset Thermal Cut-off mechanism
- ✓ Substantial base with roller, and grab handle for easy mobility
- ✓ Includes magnetic remote control (kept at the rear of the unit)
- ✓ Powder-coated hammer finish for long lasting protection
- ✓ Branding options, logos, brand name...
- ✓ Easily replaceable element type that lasts 10,000 hours – good for 10 years approx.
- ✓ Patented 30K Carbon Fibre technology
- ✓ Tested to British and European Standards. ELS18801211/C/OC/14
- ✓ Comes with a water-resistant padded cover
- ✓ 4 models: Helios, Diana, Apollo and Athena
- ✓ 'Next day' delivery by courier
- ✓ 2 year warranty

PRICE: £399 including VAT, delivered
