

WEDDING PHOTOGRAPHY

By Colin

Your wedding photography is an investment in the future history of your family, we endeavour to tell that story in pictures.

Your wedding coverage starts with a consultation, your chance to get to know us and our chance to learn about you and your special day. We will ensure we are familiar with both your wedding venue and reception, so we are fully prepared on the day.

We aim to tell your story through pictures as a photojournalist rather than just hotch potch collections of family groups and posed set piece shots. The family groups and formal shots are important but they are only part of your wedding day, which begins with the preparations, the bride surrounded by girlfriends, family and bridesmaids getting ready, the journey to the church, pictures of friends and family

arriving at the church, an assistant photographer may be with the groom and groomsmen, capturing the nerves, excitement and anticipation, probably in the pub!

By minimising the use of flash with specialist lenses that capture low light levels, common in churches and venues, we can discreetly capture the whole service. After the wedding formal group pictures, an opportunity arises to capture romantic shots of the newly married couple, with elements of a fashion shoot. Where previously the photographer would grab a faked shot of the cake cutting and then be off, now we will follow the day right through the reception to the last dance and all the fun and excitement of the reception, capturing atmospheric pictures rather than just having a collection of snap shots from guests, that often leave

something to be desired as the night goes on.....

We are a husband and wife team, the use of two photographers allows us to ensure we capture all the action at busy moments, using top quality equipment from Leica & Nikon.

We offer a very wide range of album choices and offer creative and imaginative slideshows, including video snapshots, set to music, playable on Television, Computer, DVD player, iPad or smartphone, alongside digital files of your pictures, a web gallery of your pictures to share with friends and family and a wide selection of printing services, including Canvases, Gallery wraps, framed and matted Fine Art Giclee Prints of the highest standard printed in house with our large format Epson 7890

Albums

Our album collections start with Photo Story Books from Apple & Blurb and extend to superb deluxe handmade albums from GraphiStudio of Italy, offering a very wide choice of albums, covers, mini books and more varied styles of album creation in the layout. We have sample album's available and seeing really is believing.....Cover choices include Italian Leather, Die Cut Leather with an

inset picture, Silk, Crystal Acylic, Metal Covers.....A wide choice of papers and finishes & a huge variety of layouts.

You are welcome to select images and the layouts of the album in full or in part as you wish. Alternative albums are available on request.

An "Engagement Shoot" is fun and a chance to be the star of your own photo-shoot, and removes any nerves about being photographed on your Wedding Day, we will ensure that you look great and you can pick a location that has meaning to you both.

In common with many leading wedding photographers we include an "Engagement Shoot" in most of our collections. These are becoming the norm with high end photographers, they are very much appreciated as part of the wedding itself. Couples go on a "date" with a photographer! Going to a favourite place, perhaps where the proposal took place, perhaps taking a boat ride or a ride on a steam train or.....whatever!

The pictures are a mixture of photo journalism and quasi fashion shoot, couples are often a little nervous of being photographed but we put

people at ease within minutes and ensure couples look fabulous and come the Wedding Day, couples love the photography and are not nervous about how they look or react to the camera. The end product may be fine art prints, photo books, sideshows to music, web galleries....much as the Wedding itself.

A favourite is the Signature Print, a framed picture from the engagement shoot, with an extra wide mount to allow guests to sign and send the couples their good wishes which is left at the reception, unlike a traditional book that is tucked away in a drawer.

"Thank you colin, our engagement photo shoot with you has been a great experience and the results are self explanatory; great photos and dvd , a very enjoyable and memorable day can't wait until our wedding day and seeing the results of our photo's as nothing seems to be to much trouble for you ,we are sure now that we have made a very good choice of photographer many thanks, Richard and Laura"
