# portrait & family sessions

## \$200 Sitting Fee

These sessions are ideal for portraits, family photos, engagements, Love The Dress or pet portraits. Sessions generally last anywhere from 1 - 2 hours. We are very open to your ideas, and if you have examples of what you would like, even better! If all you know is that you would like your pictures taken, then we can help guide you and suggest ideas that will bring out your own unique personality. As a client, you are welcome to the use of any of our props that we have available, and are encouraged to bring props that you feel would be fun or exciting.

Prints and Digital Files are available through the photographer (please request a price list, or view the last page of this pamphlet).

Please contact us and let us know what your individual needs are. We would be happy to work with you and welcome your ideas.

# the print advantage

## Who does Prairie Sky Images & Design print with?

Prairie Sky Images & Design prints all of our prints and products with Technicare Calgary. Technicare is an exclusive service for professional photographers only.

## Why spend more for prints?

There are several reasons to invest in higher-quality prints.

First, at Prairie Sky Images & Design, our monitors are calibrated to Technicare's printers. This means that exact colours we see on our monitor are precisely the colours we get with our prints. This prevents strange colour casts on skin and light colours. Unfortunately, places like Costco, Walmart, MPix, Shoppers Drug Mart and London Drugs do not post their printer settings. Therefore, we have no control of the colours that get printed.

Secondly, a wide range of papers are available that can add extreme dimension to your prints. Linen, metallic and lustre papers all add a different effect to your photograph. These types of papers are not available at public printers.

And lastly, the prints are guaranteed archival quality. This means that, if cared for properly, your photographs will last for generations.

## Why am I required to purchase prints?

In the past, we have found clients pay for the session and digital files, but then never print a single picture. It is important to us that clients utilize their images by displaying them on their walls, which is why we no longer sell a disc containing all the images, but have made the disc free after a certain purchase point with prints.
