

Soultap Therapy is a transformational process that presupposes a full-hearted commitment and engagement of both the therapist and the client. The sessions are longer than the standard counseling sessions and take between 1,5 to 2 hours. Working in this manner reduces the overall time of therapy from years to several months or even weeks.

The cost of a 90 minutes session is £80; the cost of a 60 minutes Reiki session is £40.

*Concessions are available to students, pensioners and low-income earners.*
