Departing from Cape Town we travel along the R27 taking the scenic coastal route of the Western Cape to Langebaan. The idyllic beachfront setting! Crystal Lagoon Lodge rests on a fynbos-sheltered dune only a few feet from the ocean's frame. Extraordinary beautiful sea views from the highest point on a fynbos-covered dune through large floor-to-ceiling windows. Crystal Lagoon Lodge is situated right on the edge of the desirable location of Langebaan lagoon. There are no borders between you and the sea, only the boardwalk, and a few wooden stairs to a white sandy beach of a sea lagoon, where shells depict as proof of life around our kelp forests. Shells are only found next to a sea fed lagoon without any river inlet flowing into the sea. The ambiance of Crystal Lagoon Lodge celebrates one of the world's rare sea lagoons.

Spectacular scenery of rugged hills and granite domes offers itself on the drive to our destination - Naries Namakwa Retreat. A day excursion to the quaint harbor town of Lüderitz! The town has an interesting German colonial background and sports a curious array of historical buildings built during the diamond rush at the turn of the century. We visit the "ghost town" Kolmanskop where the first diamonds were found 100 years ago. Today its dilapidated houses are slowly being swamped by the shifting sands of the Namib. We return to Klein Aus Vista in the afternoon

### **Day 8/9: Namib Desert**

We proceed slowly to our next destination near the entrance gate to the Namib Naukluft Park. Age-old camel thorn trees and unsurpassed 360 degree views dominate the desert landscape towards the mountain-range in the distance. Today's highlight is the high dunes at Sossusvlei, a truly spectacular sight. We enter the Namib-Naukluft Park at sunrise, while the temperature is still mild and when the dune contrasts are at their best. At Dune 45, the more energetic have the opportunity to climb to the upper ridge of the world's most photographed dune. Further along, a gradual 2.6 kilometer round-trip walk takes you to the well photographed "Dead Vlei". Sossusvlei is at the 'end of road' and the highlight of the day. We also visit the rugged Sesriem Canyon, where the Tsauchab River and erosion have incised a narrow gorge over the millennia. The permanent water pools at its bottom have ensured the survival of nomadic populations in pre-historic times as well as that of early European explorers and the so-called Thirstland Trekkers, in more recent centuries.

On our way back to the Sossusvlei Desert Camp, we take a lunch break at a lodge situated next to the Sesriem Gate of the park where light lunches (optional) and cold beverages are served on a terrace overlooking the dry bed of the ephemeral Tsauchab River and the dunes beyond it. On return to our accommodation, the remainder of the day is at leisure.

After arriving in Swakopmund you can explore the popular coastal resort on your own and spend time at leisure or with shopping.

### **Day 13/14/15/16: Etosha**

A visit to the Etosha National Park is one of the highlights of travelling Namibia. Etosha, which was declared a game reserve by the German colonial administration back in 1907, covers an area of more than 22 000 square kilometres. In its centre lies a vast saltpan surrounded by grass and thorn savannah, Mopane bush land in the west and dry forest in the north-east. About two million years ago, this area was an enormous lake, fed by the Kunene River. However the lake slowly dried up because over time, the river changed its course. The Etosha National Park has a good infrastructure. Well-maintained gravel roads (untarred) leads to the waterholes, where game viewing is at its best. In the three rest camps Okaukuejo, Halali and Namutoni, hotels, chalets and camping sites are available as well as restaurants, stores and swimming pools. The main entrance to the park is called the "Andersson Gate" at Okaukuejo in the south, where the park administration is also situated. The "Von Lindequist Gate" lies in the east near Namutoni. A new gate, the "Nehale Iya Mpingana Gate" (King Nehale Gate) was opened at the beginning of 2003 in the north-east. The pan is just about always dry. However, in the southern parts there are water-holes scattered throughout this area and form the basis of life for countless game. Be it a lion or an elephant, a giraffe or a zebra; almost all African animal species are represented in the huge nature reserve, approx. 22 000 square kilometres in size. There is an estimated number of 250 lions in the park, 300 rhinos, 2 500 giraffes, 6 000 zebras and more than 2 000 elephants. The dainty springbok are especially numerous; at least 20 000 of them roam the reserve. Often, they can be observed in enormous herds of several hundred animals.

**Activities:**

3 full days game drive in the Etosha Park.

**Overnight at Dolomite Camp or similar (DBB)**

Enjoy after a long flight the charm of scenery and unspoilt nature. Ondekaramba means: The place where grazing is good. Thanks to this, combined with numerous watering places, you can be at one with nature by exploring, be it via game drives, hiking trails on a terrain where there are an abundance of wildlife and birds.
