Great idea for Individual/Business team building

Actual view from the accommodation verandah

EXTRA'S:

Basic Rod/reel, sinkers & hooks available at a cost of \$33.00 inc GST

MY FISHING STORY

For someone who has been fishing for over 45 years, I have found it funny and frustrating at the same time to see poor souls trying to cast their line. I had a very good teacher, my father, Norman.

It can take a while but once you get the casting right, fishing is so enjoyable!

Hence I have decided to do this so come and you will enjoy your fishing a lot, lot more.

To learn the basics of Beach Fishing:

- Casting is the key to an enjoyable and successful outing.
- The correct rigging is crucial, choosing the right sinker, the right hook and knots are another key to a good day and hopefully going home with a fish on each trip.
- The right bait is another key element to a successful trip, as well as reading the beach correctly.

After our three days together the above elements will keep you in good stead for many years of enjoyable fishing to come.

RAIN, HAIL OR SHINE WE WILL BE GOING FISHING!!!

We will move from beach to beach depending on conditions
