STAFF & SUPPORT

Simple Network Technologies strives to:

•Create through the reconstruction and development process opportunities for employment.

•Give stability to those employed by us and raise their standard of living.

It is our intention to promote skills in our previously disadvantaged group and should our company be awarded contracts which will enable us to increase our activities (sales, assembly and manufacture) we will most certainly train peoples from the previously disadvantaged community.

We are hopeful that we will be able to negotiate ongoing contracts with government departments, Industrial, commercial and professional entities, thereby enabling us to formulate a company policy whereby we can structure Donations to various Charitable Organisations.

Where possible we will encourage and implement affirmative action. However, we reserve the right to take decisions that are beneficial to our company as well as our clients.

We will encourage the support of BEE Enterprises and as a matter of fact we do purchase a large portion of our requirements from BEE companies.
