Additional Services

Listed below are some add-on services that I provide. Some are listed within the main packages, however you may wish to add some of the services to create your own package to suit your requirements.

The Wedding Ceremony

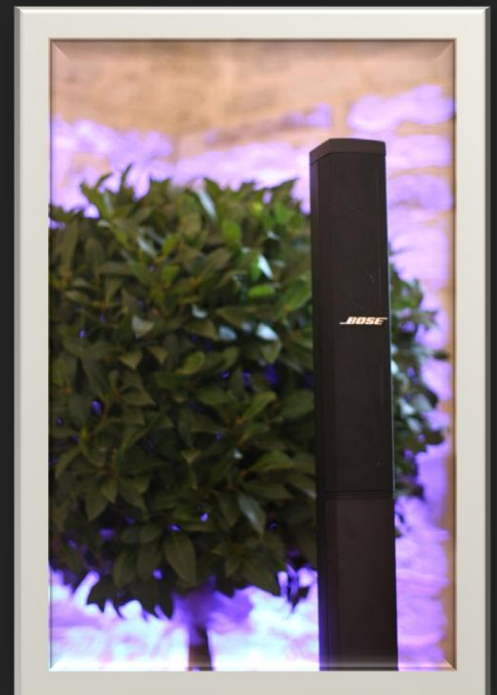

We will set up a discreet and very high quality Bose L1 Compact P.A.

Our trained staff will liaise with the celebrant, and play your choices of background music as your guests arrive, then for the procession, the signing of the register and for the recessional.

This takes away the responsibility of asking a family member or friend to work unfamiliar equipment during your big moment. Then everyone can enjoy your ceremony fully.

At the end of the ceremony, the equipment will be removed and taken away.

- **My fee for this service is £225.00**

Candy Cart

A traditional candy cart will be decorated in your wedding colour theme and filled with a selection of everyone's favourite sweets.

Everyone loves a treat and this will be a welcome addition at your wedding. Kids of all ages will love the candy cart.

- **My fee for this service is £249.00**

Mood Lighting

LED up-lighting or mood lighting is a great way of changing or enhancing the look of a normal otherwise plain function room or marquee, and creating the ultimate "wow" factor!

With LED mood lighting you can choose to up-light the full venue, part of the venue or just highlight certain aspects of the room such as pillars, fireplaces or alcoves.

Our mood lighting services will have your guests talking about your event for years to come! Mood lighting can be matched in colour or colours to your particular theme - with RGB colour mixing, we can create literally thousands of shades of colours - so the effect created really is nothing short of fantastic - creating the ultimate "wow" factor to your chosen venue.

We make beautiful venues, into stunning venues! **Prices** for this unique service

£60 for 4 units,

£120 for 8 units,

£175 for 12 units,

£225 to fill the whole room or marquee

If you are unsure how many units you require, I will personally visit your chosen venue and measure the room and let you know how many you would require, as a general rule – we place mood lighting units between 3 – 5 metres apart.

Dry Ice (the real "WOW" factor)

The ultimate 1st dance experience, using dry ice for your first dance will create the "dancing on clouds" effect.

I use real dry ice, so the effect will be stunning. Floor hugging clouds will fill the dance floor area creating a real "wow" factor for your guests as you are dancing away to your chosen song.

Your photographs of your first dance will be a talking point for many happy years to come.

- **My fee for this stunning effect is £200.00**

* As I use **real dry ice (CO2)**, unlike some of the cheaper alternatives that use traditional smoke machines there are no issues with venues fire alarm systems. The ice will hug the floor and will simply disappear when it rises above knee level.

Starlit Backdrop

Our stunning LED starlit backdrops are a flawless blend of striking elegance and individuality, combining rich high quality fabrics with soft lighting and flowing drapes.

Back drops can transform any unsightly function room or dance hall into a romantic fairy-tale wedding setting. Our backdrops are fully versatile with a maximum span of up to 6 metres wide and 3 meters high, and totally adjustable to fit into any available space.

As standard our backdrop comes with white LED lights that add a magical sparkle effect. Or why not change the colour of the backdrop to your wedding colours using our spectacular LED mood lighting behind the curtain.

This gives a fantastic effect and in-keeping with your wedding theme.

The curtain is set up in the morning and removed after your function has ended.

- **The fee for this stunning additions is £250.00**

Confetti Cannon

You only get one chance to create a special moment, and confetti cannons are perfect for that instant "WOW" at your wedding to capture that special moment during your first dance. Confetti cannons can add something extra special to any event or occasion, matching confetti to a theme of your wedding really does add something spectacular.

You can choose your own colors and even shapes, imagine Silver and White rectangles or Red rectangles... or Pink?.. Purple... Blue... any color or mixture of colors, and why stop there! What about red hearts or pink hearts... or butterflies? In fact we can create confetti to your specifications – perfect for the extra special moment for your wedding.

- **The fee for a Confetti Cannon is £50.00**
(Price per cannon)

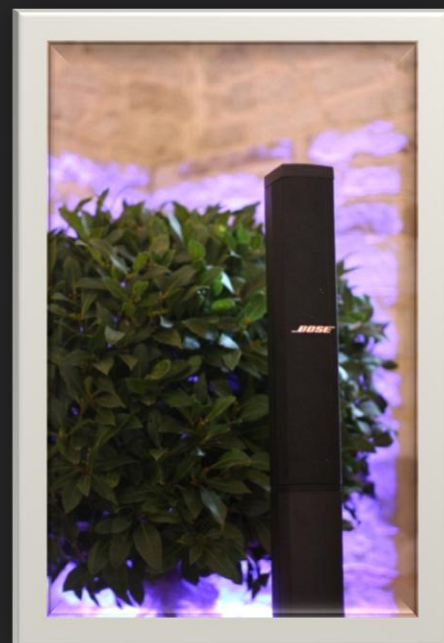

Bose P.A. Hire

This is a cost effective way of providing background music at your wedding breakfast or as your guests arrive at your venue during the day.

This is also an ideal solution if you would like music at a lower volume played in another part of the venue, like another room or in the foyer area.

I will supply and set up a high quality Bose L1 compact at your venue, along with a radio microphone for speeches. You can then plug in your own iPod or mp3 player straight into the system via the supplied cables.

- **The fee for the Bose L1 Compact hire is £150.00**

Photo Booth Hire

The photo video guest book system is a unique and fun way to capture photos or videos from an event. It's great at weddings and conferences. It adds a whole new level of interaction to your event. It's just like an electronic diary but with photos, moving pictures and sound as well.

Photo video systems are freestanding and self-contained and are ideal as there is no cameraman chasing your guests, putting them on the spot and demanding they perform and it saves you the cost of you having to buy disposable or digital camera for your guests to take pictures. The video booth just sits outside your main room of the function, or in its own booth area ready for action. It allows guests to quickly and easily leave you a video message or take a group of photos each visit at a touch of the screen.

Photo booths are extremely popular, and booking is subject to availability

- **The fee's for the photo booth start at £550.00 for 3 Hour hire and operator**

Andy Collins

Professional Wedding DJ

I hope that after viewing my website and reading this brochure you agree that my services excel over the majority of entertainment providers. I provide high quality, dependable and reliable wedding entertainment to my clients who are looking for the very best for their weddings. With my signature service and attention to detail, I firmly believe I offer exceptional value for money for the level of service that I provide.

Working with you every step of the way, and providing you with your own client area of the web site – I can ensure your wedding is truly unique and personal to you.

My aim is to provide you with quality bespoke, quality entertainment that compliments your wedding style and respects your vision and wishes. I will endeavour to make sure that your wedding will be the one that's remembered for years to come - making your wedding fun, unique and memorable.

My overall service starts with the initial phone call or email. I always provide a no obligation meeting, so that together we can discuss your wedding plans and what I can provide to make your dream wedding a reality.

I am not an agency and I do not subcontract work out to other suppliers, so you can be rest assured that if you book me, it will be me that personally performs at your wedding.

If you would like to arrange a no obligation meeting to discuss your wedding in detail, please call me on **0800 644 1986** or email me at **andy@andycollinsdj.com**

All bookings are secured by contract and written confirmation for your assurance. An initial payment of 20% is payable upon booking to secure your date and cover our admin costs of issuing your contracts and setting up your personal online planning tools. The remaining balance is payable within 14 days of your wedding date.

Yours Faithfully
