PROUD ABOUT OUR *Wines*

At **BUMPKIN** we *take pride* in our wine list and *select our wines* with the same *passion* as we source our food. Wine on our list is produced using *sustainable, organic* or *bio-dynamic* practices in keeping with our menu philosophy.

SUSTAINABLE VITICULTURE is environmentally friendly: weed killers and pesticides are kept to a minimum, water is conserved, rubbish is recycled and fuel and electricity use is kept as low as possible.

ORGANIC VITICULTURE is also sustainable, but no man-made fertilisers, herbicides or pesticides are used.

BIO-DYNAMIC VITICULTURE goes even further, using ancient as well as new techniques to improve the environment, not just protect it. Vines are sprayed with special preparations rather like herbal remedies.
