Intuitive Reiki Level Master Level \$520

Master Level is about spiritual healing, along with the ability to teach if one so desires.

The world is in great need of more Healers, people who strive in their day to day lives, to serve humanity through self empowerment. As Reiki practitioners, whether we have a practice or not, are in continual movement towards the whole, towards being in the now which is one with all life. This is healing.

Reiki Third Degree serves to harmonize all your previous work. Reiki First Degree allowed you to begin the self healing process and Reiki Second Degree continued this process as well as allowing you, the student, to be a vessel for healing others, both in person and long distance. Reiki Third Degree completes the tools that allow you to live a more centered, connected, and a more spiritual life.

The healing attunement is given and received by all students. There will be plenty of time to practice doing attunements so that each student is confident with administering all the attunements.

The requirements and responsibility of being a true Reiki Master;

This is a very powerful healing experience as students practice giving attunements on each other so that each student receives many attunements. As Reiki students or students of life, we strive to close the gap between the divine and ourselves every day. Expanding our light and connecting to our Higher Selves is our mission in every moment.
