

Ideal for:

- Manholes
- Drains
- Bunds
- Retention ponds
- Ditches

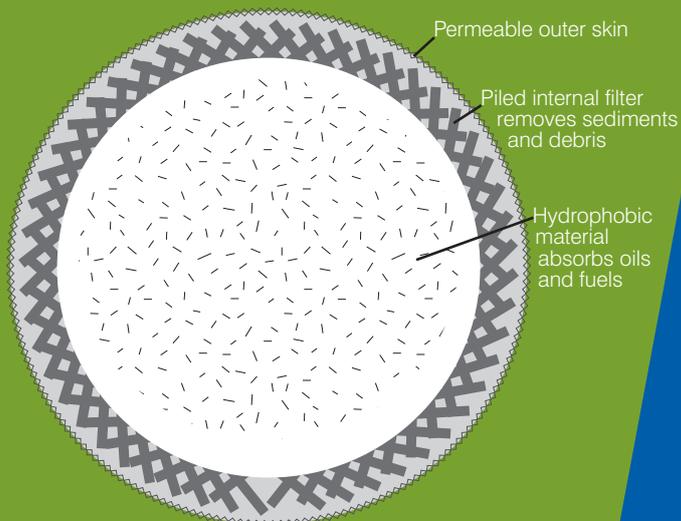

Removes
up to
20L
of oil

Filter-Sock

The **simple** and **economical** way to deal with lightly **oil contaminated** bund and drain **water**

Multi-layered filtration system removes oils, fuels and sediment

Filter-Sock cross section

Economic and environmental benefits

- Removes oils, fuels and sediment to almost non-detectable levels
- Reduces costs by eliminating need to remove contaminated water by tanker
- Reduces temptation to release contaminated water into the environment
- Attractive to companies registered for BSN EN ISO 14001 certification

Using Filter-Sock

- Connect Filter-Sock to a hand-pump with supplied hose-clip
- Pump contents of bund/drain through Filter-Sock
- Regularly check discharge for cleanliness
- Dispose of used Filter-Sock as oil contaminated waste

Code	Description	Price
SOC18457	1 Filter Sock (boxed)	£45.00
