## Wedding Price List

Effective January 2013

Amber Kelly-Ringrose has been working in the wedding industry since **2002**, although her love for photography began at a much younger age. She considers herself extremely lucky to be one of the few people in the world who is able to have a career in what they are truly passionate about.

While completing a Degree in Bachelor of Fine Arts Photography and Digital Imaging at the University of Western Sydney, she further developed her skills and gained valuable experience as she managed & photographed for some of the leading wedding photography studios in Sydney, some of which she occasionally still photographs for, even today.

Amber prides herself on having a fine eye for details, framing every photograph with precision and delivering impeccable service. With a genuine love for photography, Amber cares about your memories, spending hours before & after your wedding day ensuring that you receive an amazing finished product.
