About the publisher

DEFINITION OF MIDLINGS

Middlings commonly have a comfortable standard of living, considerable economic security, moderate work + life autonomy and often rely on their own expertise to sustain themselves.

They place great emphasis on independence, value innovation, respect the non-conformist and have great concerns for the environment. They appear established and well rounded but often have insecurities locked within.

Middlings live among others but essentially feel apart from it all. They often ask themselves this: *“Are we not as happy as those who are much better off in this world?”*

This is a fictional book. If you find any similarities of yourself in this book, it is purely out of coincidence or a result of the author's daydreams.

Or you could just be one serious fellow middling.

PREFACE

An ordinary man can enjoy
breakfasting on juice and rye bread.

But when you are underfed,
scorned, miserable or just
plain bored, you don't want to
eat dull wholesome food.

You want something a little more
colourful, exciting, tastier,
meatier and juicier.

Rescued by Tom and Jane, Hae leads a comfortable and routine life at home. As long as he abides by Jane's rules, Hae never has much to worry about. Everything is provided for him.

Over time, Hae becomes restless with the comfortable routine and decides to venture out of home.

He gets to know some cats
in a back alley behind the
neighbourhood.

One of them is Whie.
No one hangs out with
Whie because she has an
unusually big red nose
that almost covers her
face. She is an outcast
because she looks
different from the rest.

But Hae is not bothered by Whie's big red nose. In fact, Hae finds Whie really special and interesting.

Whie has an unusual eating habit. She refuses to kill another living being for food.

“Hi. I am a vegetarian.”

While other cats hunt for lizards,
rats, roaches and grasshoppers,
Whie eats the left over pizzas in
the back alley.

She finishes the left over pizzas in the alley, leaving nothing to the lizards, rats and roaches.

“No food?!”

Whie tries to save these small animals from being eaten by other cats in the back alley.

Being vegetarian, Whie believes she is saving the world and making it a better and more harmonious place to live in.

Hae is fascinated by Whie's way of life. He tries to follow Whie's eating habit. At first he has trouble getting used to it.

But Hae succeeds after some time.
