About Book Two:
The unconventional life of Hae
About the creator
About the publisher

DEFINITION OF MIDLINGS

Midlings commonly have a comfortable standard of living, considerable economic security, moderate work + life autonomy and often rely on their own expertise to sustain themselves.

They place great emphasis on independence, value innovation, respect the non-conformist and have great concerns for the environment. They appear established and well rounded but often have insecurities locked within.

Midlings live among others but essentially feel apart from it all. They often ask themselves this: *“Are we not as happy as those who are much better off in this world?”*

This is a fictional book. If you find any similarities of yourself in this book, it is purely out of coincidence or a result of the author's daydreams.

Or you could just be one serious fellow middling.

PREFACE

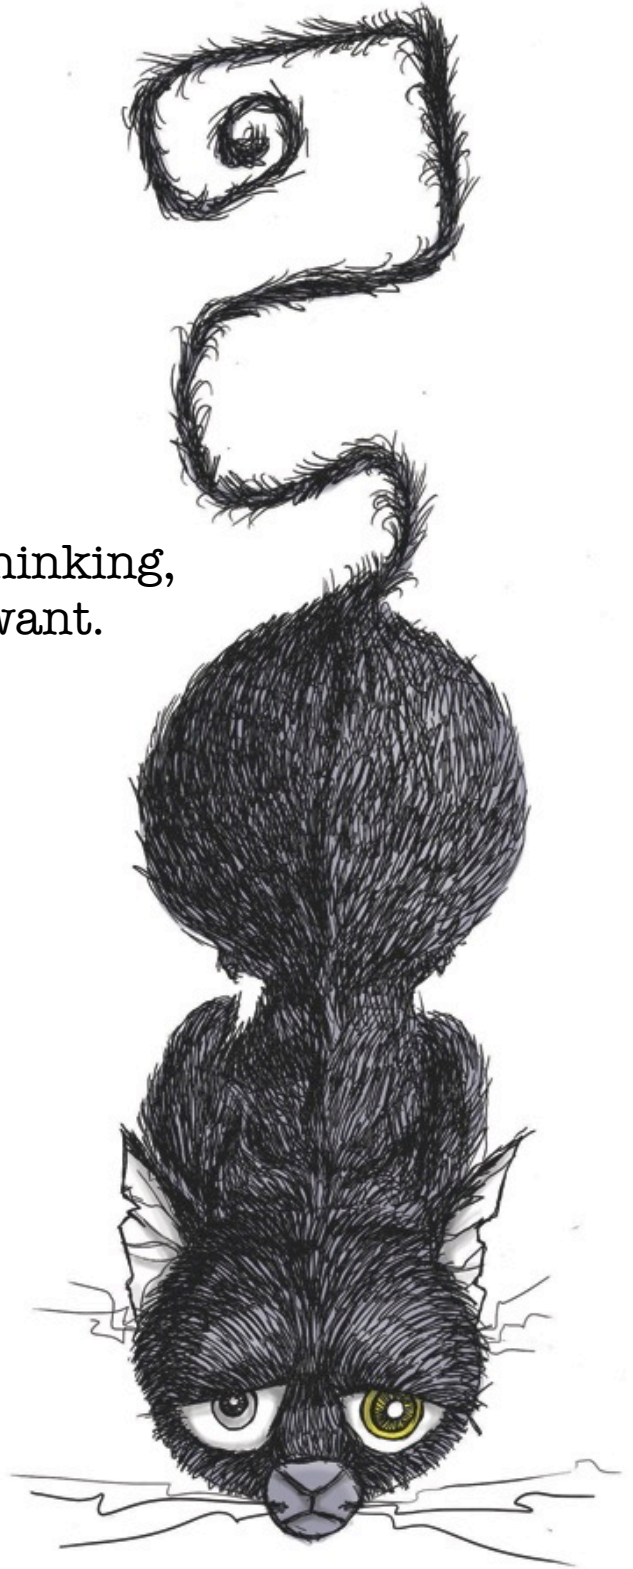

Looking

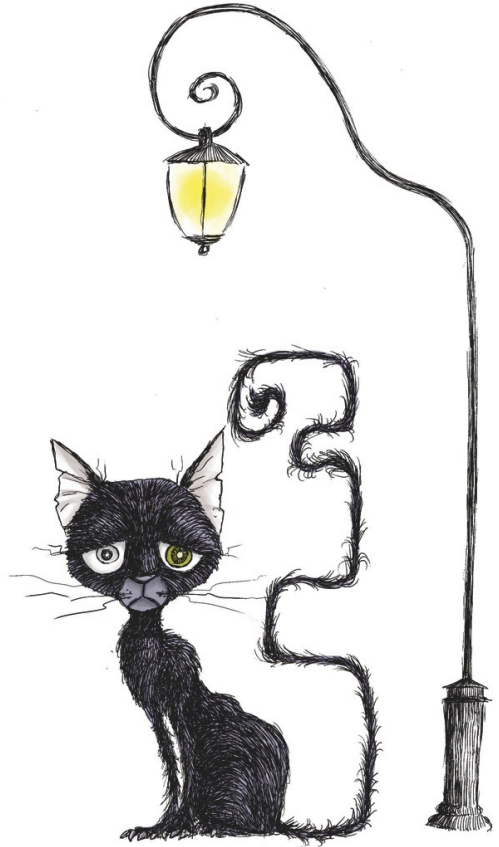

can make you want.

Wanting

can get you thinking.

If you want them to stop thinking,
just give them what they want.

Haeë is a middling cat
with an unusually long
and crooked tail.

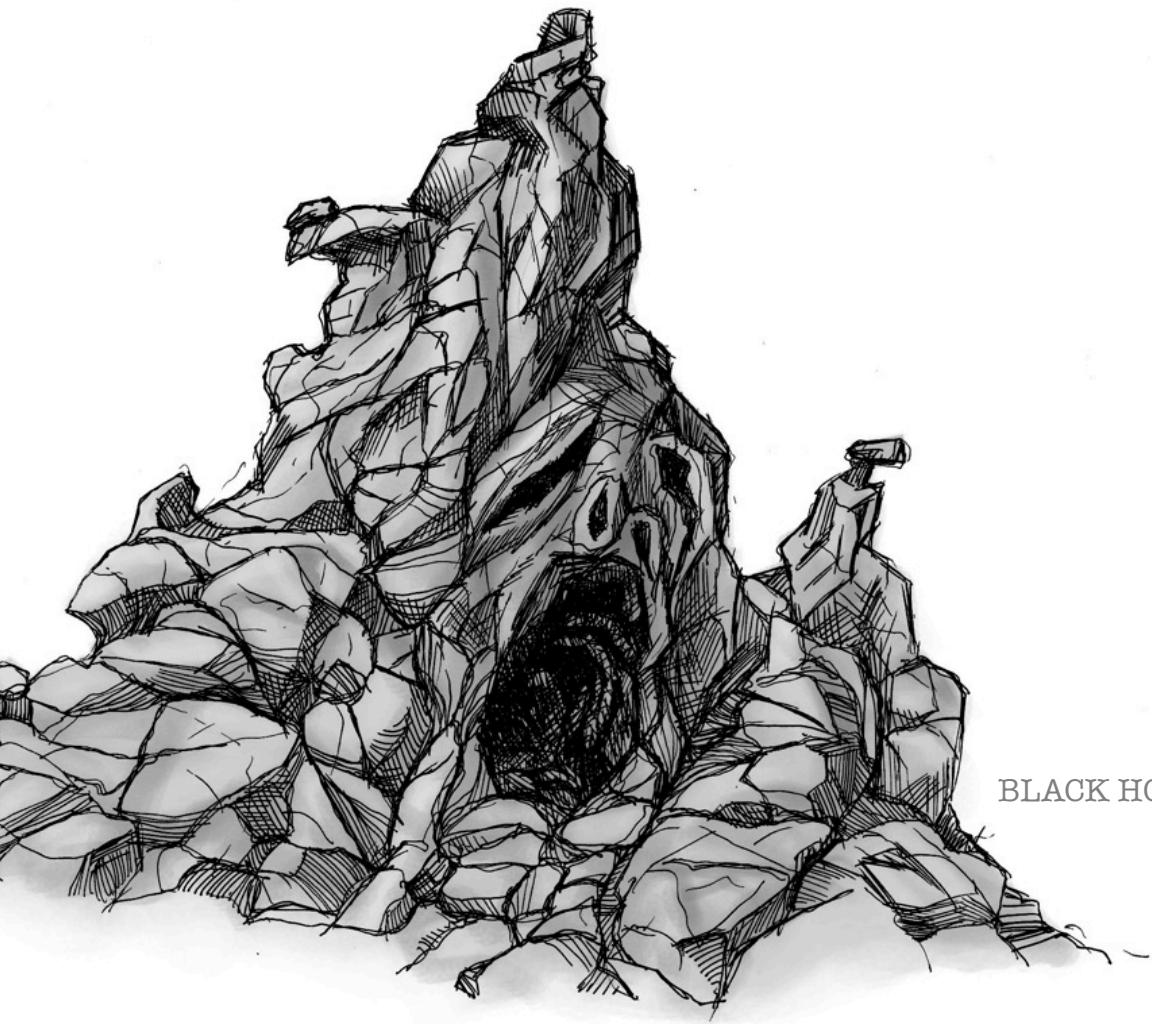

He has a great family who
loves and dotes on him.
Hae never has much to
worry about.

Like all cats,
Hae is a curious cat.
One day, he decides
to venture out of his
comfortable home.

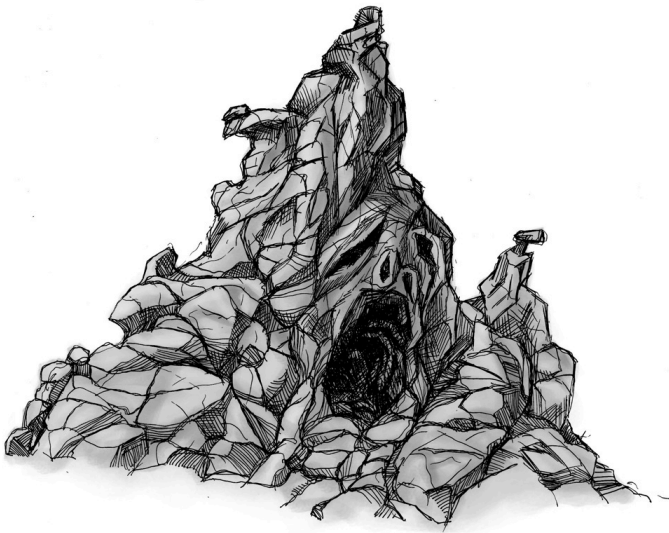

BLACK HOLE

He comes across
a black hole.
The black hole
looks dangerous
and menacing.

*“Hmm...where could
this lead to?”*

Curious and fearless,
Haeë decides to explore
the black hole.

There are
several turnings
in the black hole.
He decides to
make a left first,

and then right
at the next turn.

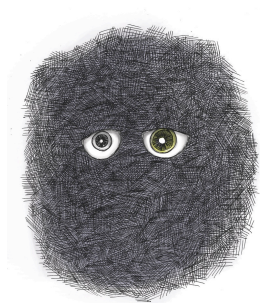

*“There must be a special
treat at the end of this!”*

Hae walks for hours.
Tired and hungry,
he decides to turn back.

But he can no longer
remember his way home.

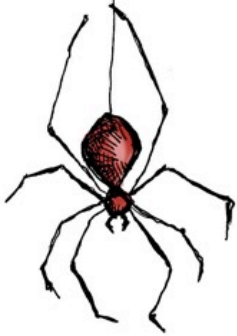

*“ meow...
meow...
meow...”*

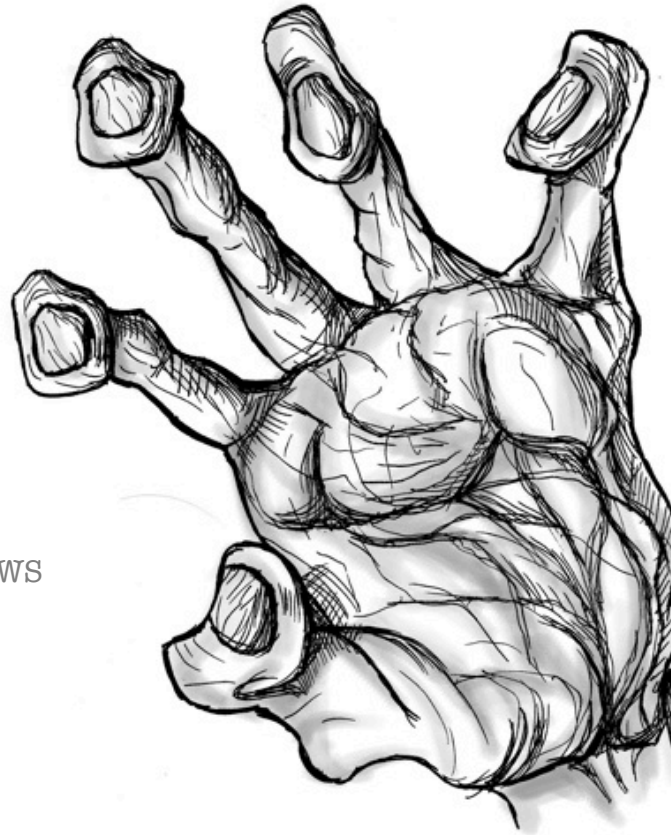

The black hole has not
led him to any special treat.
In fact, it has become
a threat to his life.

“meow... meow... meow...”

Alone and terribly
frightened, he swears
he will never act so
foolishly and
recklessly again.

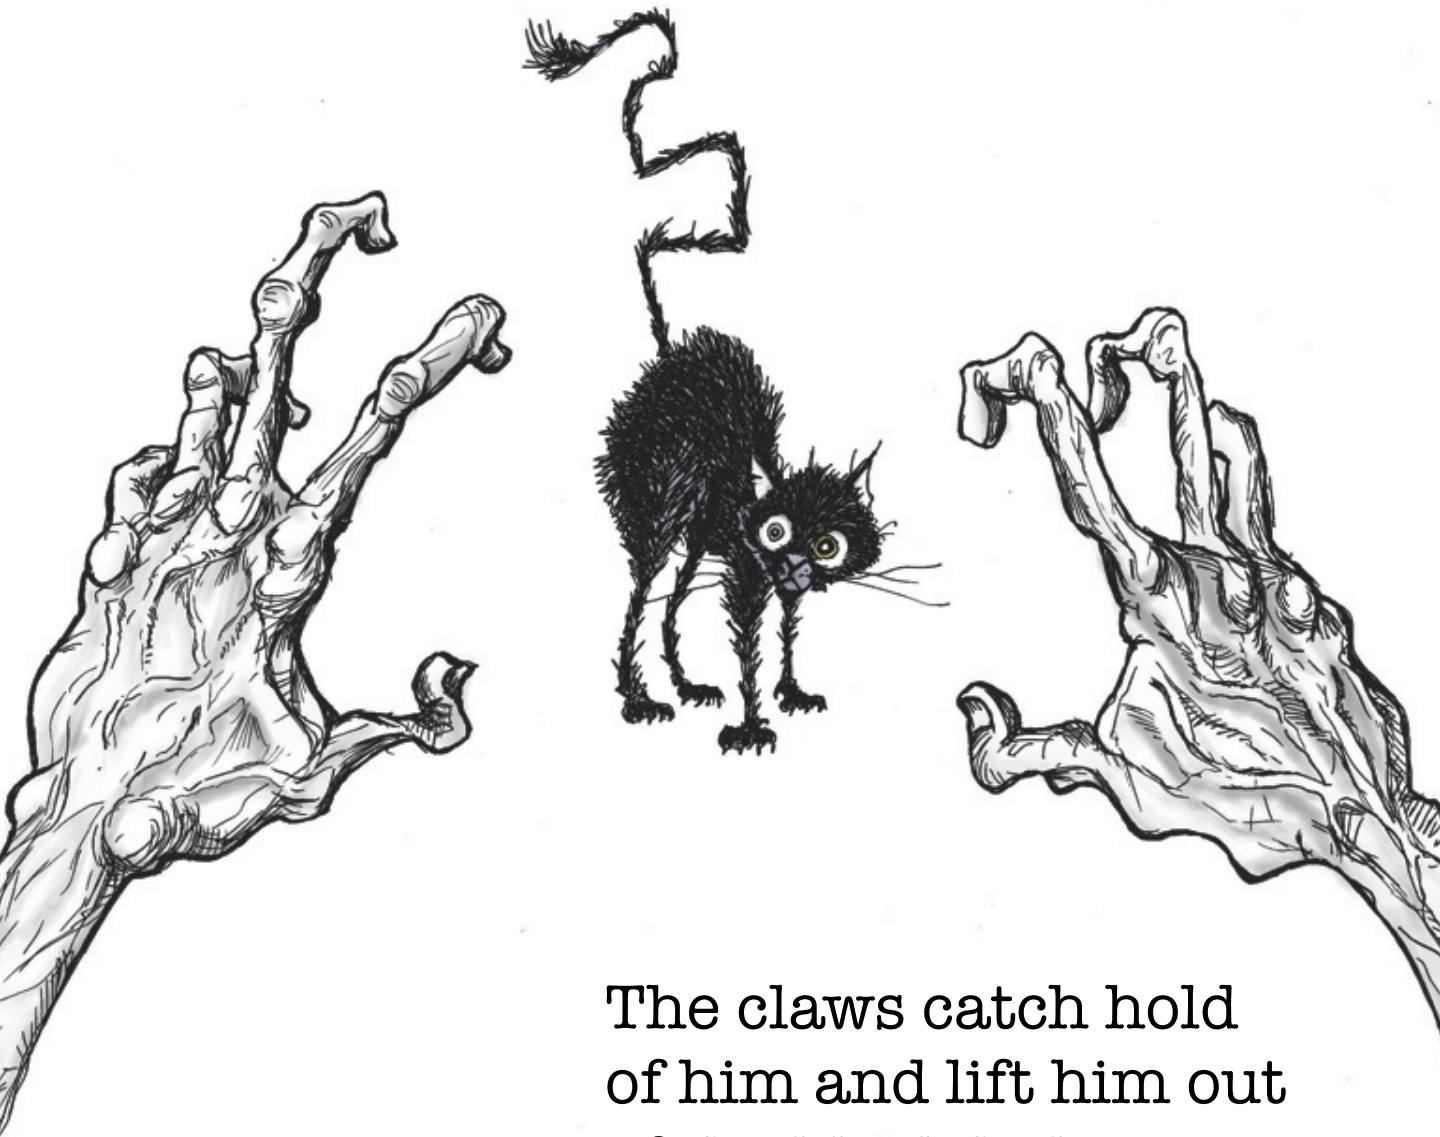

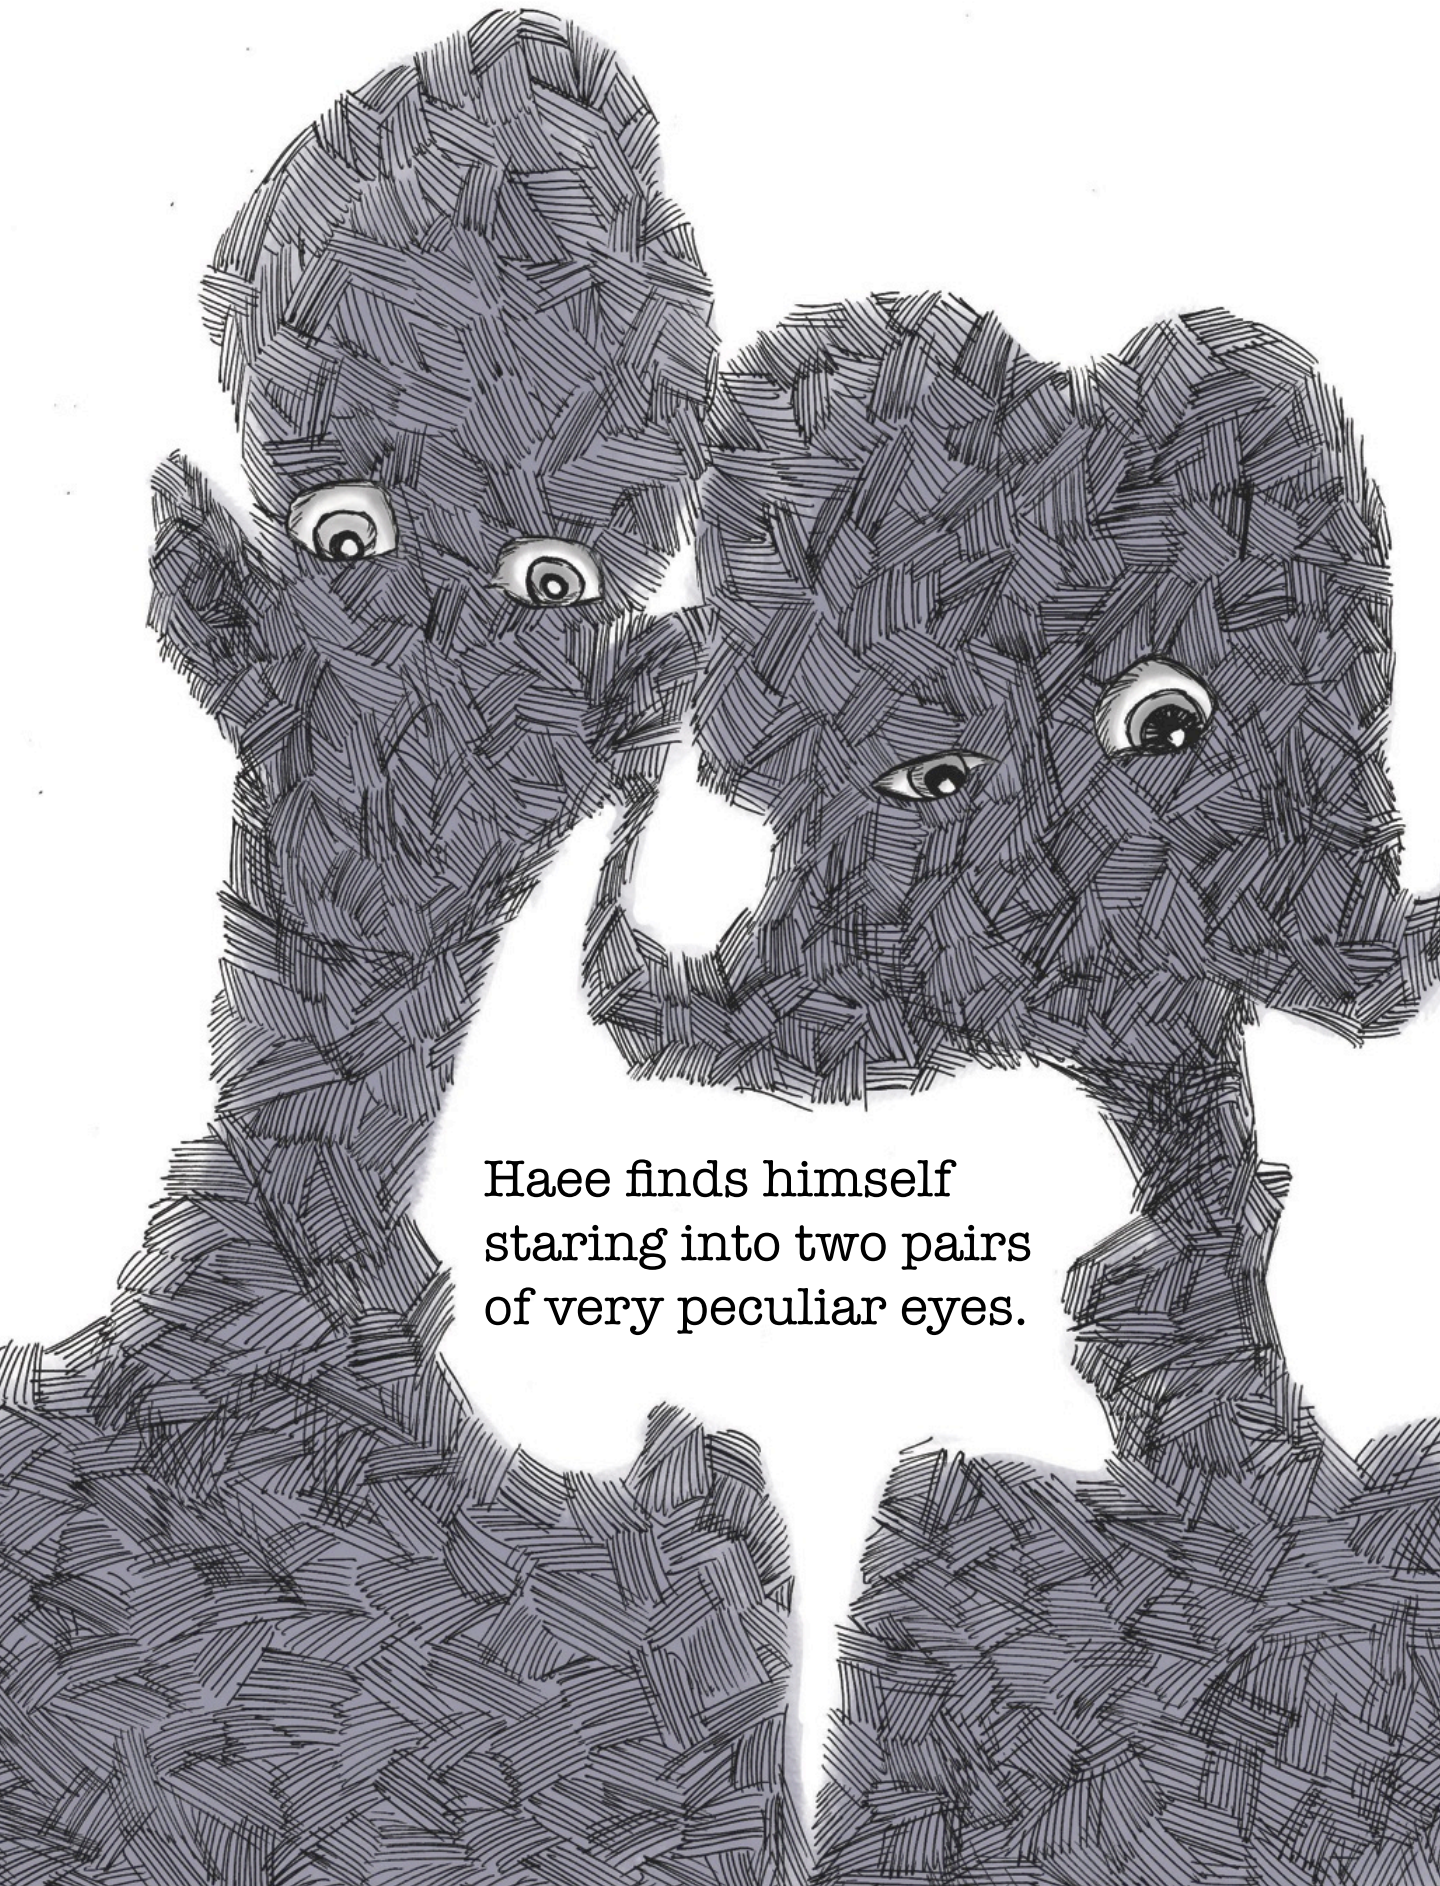

THE CLAWS

Suddenly,
Hae sees a pair of huge
claws coming at him!
Like the black hole,
the claws look menacing
and dangerous.

Terrified, Haeë tries to escape.
But he is too weak to run.

The claws catch hold
of him and lift him out
of the black hole.

Haeë finds himself
staring into two pairs
of very peculiar eyes.
