

MindPower *Safari*

**Executive Thought Leadership Bush Experience
In Thornybush Private Game Reserve**

MindPower Safari

As a corporate and business leader are you looking for an exclusive thought leadership break away experience for you and your executive team? Ask yourself “How much additional business success could my team and I achieve during 2013 if we all actively undertook to enhance our collective mental acuties and thinking faculties?” And, what if this executive thought leadership break away experience took place in Thornybush Private Game Reserve, one of the most beautiful and resourceful learning environments imaginable?

As professional business coaches, we wanted to create a world-class, totally unique, proudly African, executive thought leadership experience. Given our great love for the African bush and our very diverse business backgrounds, MindPower Safari at Thornybush, was born. MindPower Safari is Africa’s only safari-style executive thought leadership experience. We are the facilitators of your MindPower Safari and we are ably supported by the elite and experienced game ranger, tracker and lodge teams of Thornybush.

Using many brilliant examples from the African bush, we will teach you how to build your mental muscles even more. How to really move beyond what is ‘senses driven, reactive thinking’, to ‘higher faculties, creative thinking’. It’s our mental and thinking faculties, faculties which we all possess yet which we tend not to access as often as we should; which hold the key to phenomenal business success. Just take a moment to observe the world around you and all the advances that have been made within the past few years. These advances are the result of a small, select group of people using their higher faculties to create a better world for all. What they have done, you can just as easily do too when you know how.

On MindPower Safari, you’re going to explore African-bush-style, how these 6 levels of thinking will become the most powerful tools you’ve ever deployed around your business:

1. **Imagination.** *Everything in life has been built twice, first in the imagination (the workshop of the mind) and then in the physical world. All the great leaders in business, industry and the arts have become great because they’ve developed the faculty of creative imagination.*

- **Just imagine:** Stepping into a whole new world of executive thought leadership, communication, influence and successful negotiation because of the edge which you and your team has developed on MindPower Safari.
- **Just imagine:** Coming away from MindPower Safari feeling recharged, rededicated and restoked to making your business everything it’s supposed to be and so much more.
- **Just imagine:** Leaving Thornybush, having learned all about four key ecological interactions namely, mutualism, commensalism, predation and competition, and how these “wild lessons” can be applied to your business and all your thought leadership challenges.
- **Just imagine:** Moving into a peaceful and balanced thought leadership state that allows you and your team to see, gauge, and act at a level that creates significant impact in the lives of others; a truly fluid and highly creative mode.

The Thornybush Collection

- All meals
- All beverages served with your meal and on Game Drives.
- Daily Game Drives
- Staff Gratuities
- All Seminar Materials
- 3 or 4 Night Seminar options available

“George Bernard Shaw said, “People are always blaming their circumstances for what they are. I don’t believe in circumstances. The people who get on in this world are the people who get up and look for the circumstances they want, and, if they can’t find them, they make or create them.”

2. **Will:** *Will(power) goes hand in hand with persistence and with persistence comes success. Will is to the mind what a magnifying glass is to the sun; it gives you the ability to really focus and concentrate; it effectively martial all your efforts and energies on those critical business performance goals.*
3. **Reason:** *This is associated with thinking, cognition and intellect. Reason is closely identified with the ability to consciously change beliefs, attitudes, traditions and more. In between your daily game drives, we will teach you and your executive team, how to think into results, those quantum performance shifts which you seek from 2013.*
4. **Memory:** *There is no such thing as a weak memory or a bad memory; there is merely a memory faculty that has not been well developed.*
5. **Intuition:** *Intuition is an incredible faculty that we have been given to help us live our best life. Unfortunately, not many people know what it is or how to use it. Florence Scovel, a theologian, said, “Intuition is the spiritual faculty that doesn’t explain; it seemingly points the way.” Learn how to tap into the “Inner Knower” that propels the greatest business minds on the planet.*
6. **Perception:** *Perception is the process by which people translate sensory (See, Hear, Smell, Taste, Touch) impressions into a coherent and unified view around them. Our perception is simply our point of view. To change our results, challenging and changing one’s perception is key.*

This is the business edge you and your executive team have been looking for. Join us during 2013 at the luxurious Thornybush Private Game Reserve for the executive thought leadership experience, MindPower Safari.

To your abundant success during 2013!

Chris and Suzanne Styles

YOUR MINDPOWER SAFARI FACILITATORS

Chris Styles:

From his childhood forward, Chris Styles never thought small. Raised in an entrepreneurial family, his youthful years were certainly responsible for instilling great discipline, persistence and a strong work ethic. Chris studied the elephants of Botswana's Northern Tuli Game Reserve, graduating with a M.Sc. in wildlife ecology from the Mammal Research Institute of the University of Pretoria. After ten years of working throughout Africa on human-wildlife co-existence challenges, Chris sought new growth opportunities. At one point in 1999, Chris remembers emerging from more than 50 job interviews having been told that his degrees in wildlife ecology made him 'unemployable in the corporate world'. Chris persisted, not only garnering employment in this 'untouchable world', but 7 years later, being appointed General Manager to one of South Africa's leading retail banks.

Through his many successful years in banking and finance, Chris continually sought out business mentors and business coaches, understanding that the experience and expertise of others who had gone before him would help him make substantial, quick gains in his own leadership and business growth style. When he eventually chose the entrepreneurial path, Chris chose to be a Business Coach. Since his embarking on Business Coaching, Chris Styles has become widely recognised throughout Africa as an acclaimed business coach who can guide entrepreneurs on to the right path and help established businesses to greater productivity and profitability.

Suzanne Styles:

Despite the fact that she didn't complete a formal education, and found herself a single parent with three children at the age of 26, Suzanne pressed on. She was determined to find her way beyond the initial structured family and community she had emerged from. Suzanne stumbled into the advertising industry and realised she'd found a niche which would allow her to grow in business. She became South Africa's first female director of an Out of Home Media company and then co-founded her own company, Airport Media, in 2002. Ten years later, she was selling the entity at its highest point of success. Suzanne's extensive business and entrepreneurial experience made the transition from entrepreneur and business woman, to professional business coach, a natural one.

As a vastly experienced business coach, Suzanne teaches unique life and business success mechanisms. These are skills that she, herself, practiced along the way to achieve one success after another. She has an in-depth understanding for women in the workplace as well as for those women entrepreneurs who are building businesses without a lot of support from families or community circles. "Even if no one in your family or circle of life has ever managed to build a hugely successful business, their facts have nothing to do with how you will succeed," says Suzanne. "All your results ultimately come from what you think about all day long. Because we can develop ways to change and control our thoughts, we can do exactly the same with our lives and businesses."
