Motivational Speaking

Do you want a motivational speaker who uses clever, powerful metaphors to teach what are even more powerful personal and business success lessons? Do you want a motivational speaker who has perfected the art of authentic story telling? Do you want a motivational speaker who has 'been there and done that' life and business experience wise? Do you want a motivational speaker whose inspirational teachings are perfectly balanced so that they capture the imagination of both the men and the women in the audience? What if you were to get a couple, each a motivational speaker in their own right, for the price of just one top motivational speaker?

SELF ESTEEM AND SELF CONFIDENCE

Believe it or not, your success in any undertaking – business included – will never be greater than the self-image you have of yourself. Scientists and psychologists have actually isolated the one prime cause for success or failure in life to the hidden self-image you have of yourself. Self-confidence is the key contributor to how people all over the world enjoy one success after another in every arena of their lives. Deep in the recesses of your mind, you have a perception or image of what you are, who you are and what you are worth. You also have an "outer" image. This is the one you believe you're projecting to the world through the way you talk, walk, and dress. Are your inner image and your outer image in sync?

HOW TO MAKE MONEY AND CREATE WEALTH

Think of money as a flowing river. One side of the river flows towards wealth, abundance, health and happiness whilst the other side flows towards poverty, scarcity, sickness and misery. The side you find yourself on is as a direct result of your thoughts. Making money all starts with one simple thing – deciding to do so. Thing is, your thoughts determine your emotions, your emotions determine your behaviours, your behaviours determine your actions and your actions determine your results. That's why if you want to make more money you need to learn how to think yourself in to the riches you desire. Makes You Think teaches you how to do this.

afr[iCAN] trader

“Over the past few years I have always listened to Gary chatting to Chris and I about his trading, and slowly over this time period I have realised that it doesn't have to be so confusing, that the trading on the Stock Mar-

ket is in fact for the ordinary people too. It just needs to be explained in simple terminology. Like everything in life, what you really need to be a successful trader is good habits, good attitude, and great discipline.” Suzanne Styles

GOAL SETTING

Why is so much emphasis placed on goal setting and achieving? Because it works! Goals can truly help you get what you want in life if you have the vital insight and determination to take advantage of them. A goal must inspire and serve to be a focussed objective that nudges you to wrap your mind around opportunities and tasks for achievement. People without a goal are lost; they have no compass. Chart your clear course with Makes You Think.

Chris Styles:

From his childhood forward, Chris Styles never thought small. Raised in an entrepreneurial family, his youthful years were certainly responsible for instilling great discipline, persistence and a strong work ethic. Chris studied the elephants of Botswana's Northern Tuli Game Reserve, graduating with a M.Sc. in wildlife ecology from the Mammal Research Institute of the University of Pretoria. After ten years of working throughout African on human-wildlife co-existence challenges, Chris sought new growth opportunities. At one point in 1999, Chris remembers emerging from more than 50 job interviews having been told that his degrees in wildlife ecology made him 'unemployable in the corporate world'. Chris persisted, not only garnering employment in this 'untouchable world', but 7 years later, being appointed General Manager to one of South Africa's leading retail banks.

Through his many successful years in banking and finance, Chris continually sought out business mentors and business coaches, understanding that the experience and expertise of others who had gone before him would help him make substantial, quick gains in his own leadership and business growth style. When he eventually chose the entrepreneurial path, Chris chose to be a Business Coach. Since his embarking on Business Coaching, Chris Styles has become widely recognised throughout Africa as an acclaimed business coach who can guide entrepreneurs on to the right path and help established businesses to greater productivity and profitability.

Suzanne Styles:

Despite the fact that she didn't complete a formal education, and found herself a single parent with three children at the age of 26, Suzanne pressed on. She was determined to find her way beyond the initial structured family and community she had emerged from. Suzanne stumbled into the advertising industry and realised she'd found a niche which would allow her to grow in business. She became South Africa's first female director of an Out of Home Media company and then co-founded her own company, Airport Media, in 2002. Ten years later, she was selling the entity at its highest point of success. Suzanne's extensive business and entrepreneurial experience made the transition from entrepreneur and business woman, to professional business coach, a natural one.

As a vastly experienced business coach, Suzanne teaches unique life and business success mechanisms. These are skills that she, herself, practiced along the way to achieve one success after another. She has an in-depth understanding for women in the workplace as well as for those women entrepreneurs who are building businesses without a lot of support from families or community circles. "Even if no one in your family or circle of life has ever managed to build a hugely successful business, their facts have nothing to do with how you will succeed," says Suzanne. "All your results ultimately come from what you think about all day long. Because we can develop ways to change and control our thoughts, we can do exactly the same with our lives and businesses."
