your day...
your story...

I'm Jonathan, a friendly and creative professional photographer specialising in informal, documentary wedding photography. The lovely couples whose weddings I photograph, tell me that they've chosen me both for my artistic, contemporary photographs and my relaxed and unobtrusive approach to wedding photography. I'm also a member of the internationally renowned Wedding Photojournalist Association.

My wedding photography is designed around you and your wedding, so you'll have a collection of beautiful images that capture the story of your day. I won't ask you to stand in lines for hours or take over your wedding. My unobtrusive style means that most of the time you won't be aware that you're being photographed, leaving you free to enjoy your day with family and friends.

Don't worry if you're not comfortable being photographed – after shooting hundreds of weddings, I'm very experienced at helping you relax in front of the camera.

Photography usually starts from early morning preparations, throughout the ceremony and on to the reception, creating a collection of stunning photographs so you can relive all the special moments and emotions of your wedding day in years to come.

I provide a truly bespoke, personal service – I'll meet you before your wedding, be your photographer on the day and design your album. By meeting up before your wedding to discuss your day, we'll plan your photography to ensure it's accomplished with minimal disruption and maximum creativity. We'll also get to know each other better, so you'll be more relaxed on the day.

The next step is usually to arrange to meet for an informal chat and for you to view my portfolio albums. Weekend and evening appointments are always available. If you'd like to see more of my work before arranging to meet, you'll find hundreds of my wedding photographs and lots more info on my website www.brownsphotography.com.

I've lots of experience of working for couples who've chosen to get married in the North East, but don't live in the area. Just contact me for an initial chat by phone, Skype or email.
