The Children's Division (3-5 years old)

The Children's Division provides classroom and recital opportunities for students between the ages of 3-5 years old. Students must be potty trained prior to the first day of the semester to participate in classes. Combination Ballet and Tap classes allow children as young as three years of age to experience the joy and physical benefits of a dance class. Imagination and story telling through dance is emphasized using guided, creative and age-appropriate activities. Activities to develop

coordination, body awareness, and ballet and tap class discipline are present in each class. Students in the Children's Division Program have the opportunity to perform in the Holiday and Annual Recitals.

The Ballet Program (levels 1-7) is for students who are serious about studying ballet. It provides a reduced cost incentive to participate in multiple ballet classes and allows students to expand their training to other forms of dance. If a student's attendance in ballet classes falls below what is required, then LDT has the right to take the student out of the Ballet Program Tuition status and place them in normal Tuition Rates. LDT also reserves the right to excuse a student from any auditioned performance due to poor class/rehearsal attendance, attire, or etiquette.
