### **Remy Grade AAA Human Hair**

This is 100% human cuticle correct hair. It is soft, silky and lasting. The hair can be cut, coloured, curled and straightened. The hair may be re-used if kept in good condition. All hair extensions take between 1-3 hours for application.

### **Micro Ring**

Hair is attached with tiny rings that comes in several colours for a close match to your natural hair. Using a tool to pull a section no bigger than 2mm wide, the extension is then put through the ring and clamped down to secure your natural hair to the extension. This is a great method. Micro Rings can last up to 3 months depending on the aftercare and maintenance followed.

### **Prostyles**

Prohair extensions are fibre hair, they are comfortable to wear, look and feel just like the real thing. The Prohair range offers you the choice of dozens of colours in different lengths to create exactly what you want. You can go from short to long, fine to full and add colour highlights without chemical damage to the natural hair.

The hair extensions is applied using a heat clamp which creates a small heat seal around the base of the extension, locking it in place. No glue is needed and there is no tension to the roots, this means that fibre extensions are comfortable to wear, undetectable and produce a very natural look just like human hair. They last up to 3 months depending on after care maintenance followed.
