### EACH EVENT IS UNIQUE - PRICES MAY VARY

Each event is unique – prices may vary. We frequently customize the performance and equipment requirements to meet each client’s particular needs. Additional charges may apply for additional equipment rentals, extended performance time, rushed set-up or tear down schedules. Travel charges are already factored into the fee schedule and include a personal consultation and venue location tour prior to date of the event.

All events booked at these rates will include a double your money back guarantee (and limit of liability) that I will be on time at the start of the agreed performance schedule under all circumstances except for my death. Which is what it will actually take for me to miss a performance, and in that case my widow should be left alone.
