

Pricing

We require you to set an appointment to go over your catering and facility needs. We do not quote pricing over the phone since each function has its own special needs. Please remember that some of the pricing quoted at your appointment in package plan form are not a per person price but a per function price since some include rental, setup & breakdown, food, workers, linens, tax, etc. if held at our location. To save money remember that holding your function on a Friday or Sunday gives you a discount! We also offer certain months during the year with discounts on rental. Our goal is to make your event not only one your guest but you will remember for a long time to come. We want you to have a smile on your face each time you think about how smoothly it went for you the day of your function and what a good time was had by ALL !!
