

If you are interested in using the services of Pretty Vegas, we will be more than happy to discuss prices, but we don't believe in putting them online as we are flexible in our pricing policy depending upon your requirements and location.

If you have read this far, we are sure you will have an approximate idea of the cost of securing a Function Band, and we believe that our pricing represents both excellent value for money and a middle ground within the market depending upon your needs. We are not the cheapest, nor the most expensive, but hopefully you will think we are the best.

DJ Package

As we have mentioned, in addition to the Band performing, we play background music before the show, between sets, and after the performance has finished. This is typically one of the playlists that we have set up, and is varied in terms of style and tempo.

If you ARE thinking of having a DJ to play in addition to the band, using our DJ package is the best bet in terms of value for money and transition between the entertainment elements.

- Generally the package cost is cheaper than hiring separately.
- Fluid transition from DJ - Band - Food - Band etc...
- No repetition of songs. We know the set, we won't play it on the disco also.
- Maximising space. We keep the band / DJ equipment together, so more room to dance!
- Single point of contact for all your entertainment plans.
- Highly experienced function DJ.

If you have any questions on the pricing and how competitive we are to other Function Bands in the area, please get in touch and we will be more than happy to talk about your needs and how to tailor something to suit.
