## Rubbish Collection Prices Include

1. All labour (including sweeping the site clean afterwards)
2. All disposal charges (i.e. landfill or transfer station)

No Obligation Free Quote Provided On Site

We do our best to give customers guidance over the phone, but we cannot quote exact bulk rubbish collection prices until we see the job. Once at your premises, your truck team will provide you with a exact estimate (with no obligation quote) for your rubbish collection and disposal. All prices are including Vat.

## Rates Based on Amounts Cleared

Our rates reflect the amount of rubbish collected. In most cases, this is based on VOLUME (e.g. how much of the truck is filled) but collections comprising entirely of heavy materials (e.g. soil, builders' rubble, tiles) will be charged at WEIGHT rates regardless of volume

## Weight Rates

All loads that consist solely of bricks, tiles, rocks, soil, earth, rubble, concrete, stones etc, will be charged on weight. No more than 500Kg will be carried on any one load, labour included, see table below.....

Labour Inc on Heavy Loads	Kg	Prices
<b>15 Mins</b>	125kg	£60.00
<b>25 Mins</b>	250kg	£84.00
<b>35 Mins</b>	375kg	£108.00
<b>45 Mins</b>	500kg	£144.00

**More than 1 load of 500Kg? Each load after the 1st is discounted by 10%**
