

Compositing

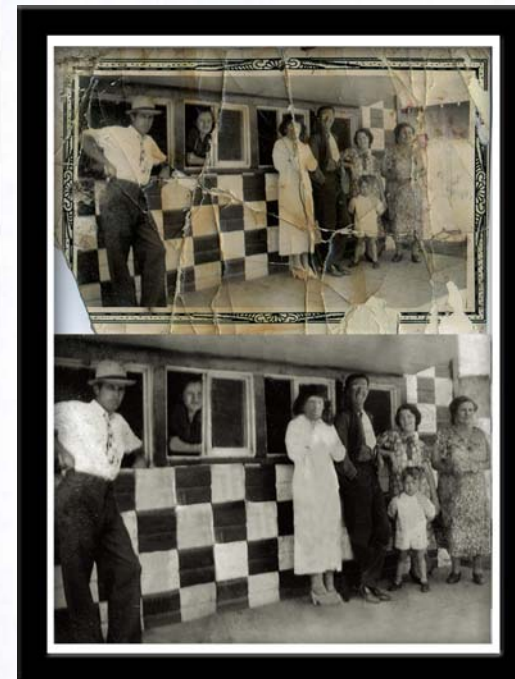

Let us create a truly personal portrait or photo for you. The elements of your portrait are photographed or scanned. Then the various elements are composited into a portrait or photo you specify. We work with you to create a finished work that will be cherished by you & your family.

Creation fee for composites depends on time & print size. Composite prints can go to 24"x30", depending on the quality of the originals.

GI Photo

Retouching, Photo Copying

Digital retouching is \$50/hour & quoted in 5' segments with a 15' minimum. The final restoration cost will be no more than 15% of the original quote without your authorization. This does not apply to changes made by the customer and not included in the original quotation.

Prints are ordered in 8x10 units. The pricing is for one picture. Each picture is priced separately.

Scan & 1 sheet	\$21.95
Extra sheets	\$12.95 each
Extra scans	\$8.50 each

Display Reprints*

11x14 print	\$30
16x20 print	\$45
Larger sizes by quote	

*Only for printing of your prints. Does not apply to composites of Graphic Impressions' photos. Add \$20 for mounting.

We cannot copy any photos or publication that are copyrighted without the photographer's or author's written consent. A copyrighted piece of work is any photo done by a professional photographer, work of art or is in any type of published work.

We can restore damaged color or B&W pictures that are irreplaceable...

...add or remove people/elements.

Ask about color tinting your old B&W photographs!

Electronic Photo Mats

Let us custom design a matte for your portrait or other photo(s). Size, shape, position, tilt, color, texture, etc. are all changeable to your specifications.

The mattes & liners can be colored, textured or be part of the underlying photo image for an effect not possible with custom cut board mats. Text plaques can be applied in a number of metallic colors.

Creation of a custom Electronic Matte is \$45 for up to eight (8) openings & are printed directly onto the photo surface. More than eight openings will require additional time charges. Print prices are over & above the matte creation cost.
