

NON WOVEN BAG CATALOGUE

ONLINE

NON WOVEN BAG

Non woven bag is made from a fabric-like material made from long fibers, bonded together by chemical, mechanical, heat or solvent treatment.

Non Woven bag is very strong and durable than the standard plastic bag we have all been using on a regular basis.

When you are carrying quite a large amount of things in your shopping bag, you do not need to worry about the handles gripping your finger to the point will tear or break.

Other Benefits of Using Non Woven Bag :

- Public visibility for your brand & messages
- Cost effective for marketing purposes
- Company could use them as corporate gifts
- Washable & reusable
