The following slides illustrate updates we will make to the admin panel dashboard page. We will display 'payments' on the dashboard page.

We have 2 types of payment records

- Payments (incoming payments)
- Disbursements (records of manual payments made to the tutors to reset their balance)

Disbursement is when we pass the money onto the tutor. Currently we take the money from the client first, and then when the service is complete, we will pay tutor their fee via bank transfer.

Account balance page

Add a new link 'Account Balance', which will let admin view TUTOR accounts with positive account balance and manage disbursements.

The screenshot shows a user management interface. On the left is a sidebar with menu items: All Users, Pending Account, Referrals, Schools, Courses, Content Management, School Rankings, Organizations, and Products. The main area displays a list of users. The first user is Anya Wasserman, with a profile card showing her photo, name, email (gaver456@gmail.com), title (Tutor), account balance (GBP0.00), hourly rate (GBP 30.00), retail rate (GBP 40.00), registration type, email (gaver456@gmail.com), and last update (2019-06-13 14:55:32). To the right of her profile are social media links for WhatsApp (anya wasserman) and LinkedIn (https://www.linkedin.com/in/anya-wasserman/), and three toggle switches for Admin, Featured, and Searchable. Below the profile card are three more items, partially visible, including Marios Katsioloudis. A red arrow points from the 'All Users' menu item to the top of the user list. Another red arrow points from the LinkedIn link to a text box at the bottom.

Make linkedin link to the linkedin URL, currently the link is broken. Also display the user's contact tel.
