

Your wedding day is one of the most memorable days of your life, and a chance for families and friends to gather and celebrate your love and send you on your way to the next stage of your life. I would be proud to photograph your wedding day and capture the emotions and memories of the day in a modern style with my own unique twist on your images.

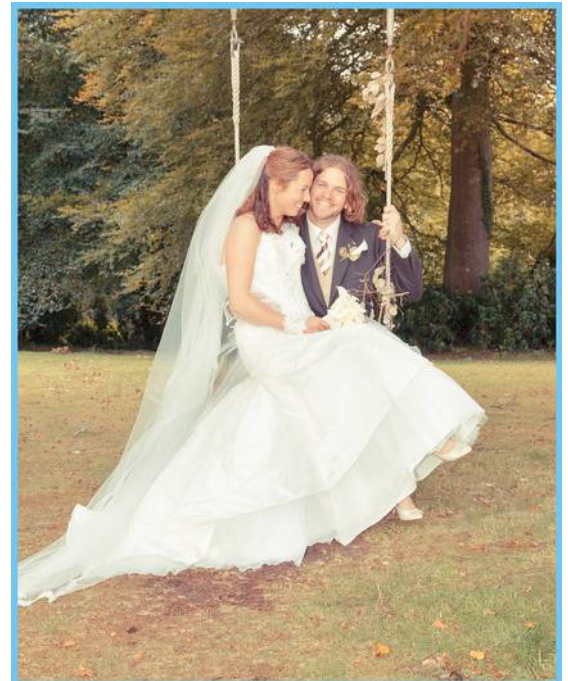

Everyone's wedding day is different and everyone wants their day to be perfect, so with this in mind I have outlined some packages below, but if you find that these don't quite fit with what you are looking for, please feel free to contact me and we can discuss your wishes.

All the packages include full day coverage of:

- Groom's house – preparations with best man/grooms men
- Bride's house – hair, make-up etc. (Both dependent on driving distance/time available)
- Full Ceremony, registry signing
- Location Shots in a variety of locations, selected in advance
- Couple arriving at reception
- Group/Family shots – following pre-arranged list
- Cake-cutting (staged)
- Speeches
- Reception
- First Dance

All packages include a complimentary engagement shoot, allowing us to get to know each other before the big day as well as giving you some images you may wish to use on invitations. The session is free, however, any extra expenses or travel expenses (outside Counties Derry~Londonderry & Donegal) are not covered.

Weddings outside Northern Ireland & Donegal may have a distance supplement to cover transport and accommodation if necessary, but I'll aim to keep this as low as possible and it will be decided before the contract is signed.

Upgrades

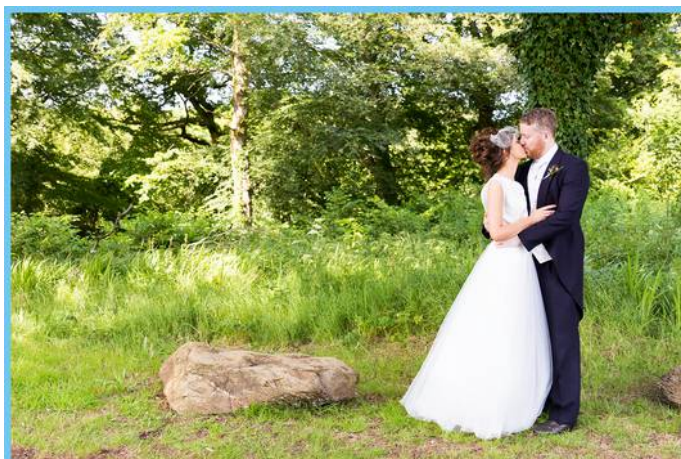

If you feel that the packages above do not cover what you would like for wedding day photographs, please feel free to call me on 07719 080008 and I will be happy to create a package to suit your exact wishes, whether it is a small tweak or a completely new package.

Second Photographer

Ensure every moment of your wedding is captured from multiple angles with an experienced second photographer. While I am capturing the key moments of your service, such as the bride entering the church, the second photographer will be capturing the priceless reactions of your guests.

The second photographer can focus on capturing all the little details that really make your wedding day, the whispered jokes, the stolen kisses and the silly dancing kids (and adults!), while I ensure that all the main shots are covered.

Even having the same shot from two different angles will add an interesting dimension to your album.

The second photographer will be available for the full day, however, they must be booked at least two months before the wedding date to guarantee availability.

Trash/Romance The Dress

An American phenomenon that's becoming popular over here for the brides that want even more spectacular shots of themselves in their dress. A Trash/Romance The Dress shoot is available after your wedding day, during which we'll shoot various images which would not have been possible or practical on your wedding day. On a Trash The Dress shoot we won't actually intentionally damage the dress, however, the locations chosen are likely to at least mean that it will need a clean after, which, to be fair, is probable after the wedding anyway.

With Romance The Dress, we'll be aiming for a more glamorous high-fashion style shoot in some stunning locations, and on this shoot we'll do our best to keep the dress clean!

Prices are dependent on the style and details required for the shoot, but start at £100, with a 20% discount if booked along with your wedding.

Congratulations, and all the best for your big day!
