Material options include, but are not limited to, matte papers, canvas style papers, metallic finished papers, leathers and more. Bindings are custom and range from papers to leathers and acrylics.

## Group and Package Discounts

If multiple bookings are made at a time, a discount will be made to each individual booking. Event packages are also available. Prices vary based on the options added to individual packages and the number of individual bookings within a group. In example, five families have birthdays coming up and would like to book a photographer. All five events are booked at once. Each individual booking would be for a three (3) hour On-Location "Stills Only" Studio Style Shoot priced at \$900/event. Book together and the individual prices would be about \$600/event plus options. The discount amount depends upon the number of events booked and the number of services requested for each booking. Another discount option is to purchase a "package" of services. For example, if your event is a wedding or a birthday, you may opt for a package for your event and bundle multiple services, prints and albums for one fixed low price. A wedding with a mix of On-Location stills, a photo booth, some video, prints and album may be bundled for a low price of \$2500. Pricing will vary based on the added options and length of time the event lasts. If your event happens to be a graduation or something similar, you may book stills and video at a flat rate of \$1750 and add optional albums and prints at a later time or simply order albums and prints separately. Other custom event packages are available starting at just \$500. Add your options and make a package that fits your event!
