MEDIK8™ PEELS

A real breakthrough in peel formula development to deliver professional results with limited stinging and very little, if any, down-time. Visible results within days. Medik8 superficial peels are mild enough to be used by all skin types all year around.

TREATMENT	⌚	£
SUPERFACIAL™ ENZYME PEEL Papaya enzyme peel with pomegranate, blueberry & kiwi. Papaya enzyme "digests" the superficial dead skin cells & reveals younger skin layers in a gentle, non-irritating manner. Accelerates the natural exfoliation process. Often called the 'lunch-time' peel, the Superfacial Peel is the best option for those looking to brighten their skin tone.	45 mins	£65
AGE PEEL An effective combination of acids to reduce fine lines and wrinkles and fade away imperfections, leaving the skin smooth and renewed.	45 mins	£80
BETA PEEL Rapidly brings acne under control and dramatically reduces the risk of further outbreaks. It delivers a heavy dose of salicylic acid and azelaic acid straight into the pores and follicles, helping keep the pores clean therefore reducing the number of pore blockages and breakouts on the skin.	45 mins	£80
WHITE PEEL Penetrates the skin's pigment cells to gently and effectively reduce the appearance of unwanted discolouration, for a more even skin tone. Especially designed to target sun damage and hyperpigmentation problems.	45 mins	£80
EYE PEEL The eye area is the first place to show initial signs of ageing, with reduction in tone and plumpness occurring as early as your mid twenties. This peel offers an ultra gentle yet effective solution to treat these skin areas through enhanced cell turnover and regeneration.	30 mins	£60

SKINBASE™ MICRODERMABRASION FACIALS

The SkinBase microdermabrasion Facial™ is a safe, controlled treatment that intensely exfoliates and resurfaces the skin. It's a leading skincare treatment in the UK for complete skin rejuvenation. A fine jet of abrasive crystals gently removes dead skin cells layer by layer whilst vacuum action lifts away the debris, stimulating the blood flow and encouraging collagen and elastin formation that results in firmer, revitalised and youthful looking skin. Wrinkles disappear, acne scarring is reduced and dull and tired skin is completely banished - sometimes after just one treatment.
