**WHY YOU
WOULD SELECT
THIS PLAN**

You want an unlimited
plan for browsing web
pages and using email,
and you're a light user of
online video.

You need a solid
connection to the
Internet for basic
use, including some
online video.

You watch moderate
amounts of online
video in addition to
browsing web
pages and using
email.

You depend on the
Internet for work
and entertainment,
and need a bigger
data allowance for
all uses.
