SALLA 350 / 500 / MAX

The Salla is the perfect floor cleaner for any warehouse, factory or large facility. With a unique multi-purpose design the Salla can actually be transformed to operate as either a walk behind floor scrubber, sweeper or portable wet/dry vacuum.

Designed for use in demanding industries, the Salla is constructed super tough to withstand the harsh operating conditions. Being battery powered also allows the Salla provide complete operating freedom while producing professional results on all hard surfaces including safety floors.

SALLA 350

SALLA 500

SALLA MAX

- 3 in 1 - Scrubber, Sweeper & Vacuum
- Removable Batteries with 2.5 Hour Life
- Great results on all Hard Floor Surfaces
- Fast Cleaning Efficiency (up to 1800sqmh)

**Simultaneously double scrubs, washes
and vacuums away the slurry**

**Can be used as a portable wet/dry vacuum
to clean all the hard to get areas.**

**Sweeper function picks up both small and
medium sized particles.**

BATVAC 50

The BatVac 50 is a fully battery powered wet/dry vacuum cleaner with a large 50Lt vacuum drum. With a combination of walk behind operation, a 730mm vacuum path and a 3 hour battery life the BatVac 50 is highly efficient and is ideal for vacuuming large hard floor areas. A separate vacuum kit can also clean difficult places such as under shelves and in remote areas.

The BatVac 50 is ideal for vacuuming floors of factories, warehouses, construction sites, and supermarkets or for removing excess water from tennis courts or swim centres.

WET & DRY VACUUM KIT

BATVAC 50

- Extra Large 50Lt Vacuum Recovery
- Efficiency of Walk Behind Operation
- Onboard Charger & 3 Hr Battery Life
- Vacuum Kit for Hard to Reach Areas

JETVAC MAXI / MAJOR

JETVAC MAXI 6 / 8 BAR

The JetVac Maxi is a mains powered continuous steam vacuum machine that can be used anywhere requiring high quality steam cleaning and wet vacuuming. Available in 6 & 8 Bar models the Maxi has a 4Lt water tank and 2Lt detergent tank.

JETVAC MAJOR 1 / 3 PHASE

The JetVac Major is a 15A continuous steam vacuum designed specifically for extra power to make short work of any cleaning problem you might have. Available in 1 Phase 6 Bar or 3 Phase 10 Bar models the Major has 15Lt water & detergent tanks.

- Continuous steam & water refilling
- 155-185° C steam cleans and sanitises
- 94% dry steam cuts water use by 90%
- Emulsifies grease and grime fast

Kit Steam & Vac 10 Bar

Kit Steam 10 Bar

VAC14 VACUUM

The VAC 14 is a wet/dry vacuum equipped with a water filtration system to trap even the finest particles. This high filtration makes the VAC 14 ideal for dusty environments such as bakeries and workshops.

- Water Filtration System
- Large 14Lt Vac Drum
- Extra long stretch hose

Kit VAC 14
