

100 Bentley Street

Front Office Facilities

2 Press approval facilities
Custom software integrated across the organization for production tracking

Prepress Facilities

Latest generation Intel Macintosh workstation
ROOM (Rip Once Output Many) workflow system (NEXUS)
Best Color RIP driving Epson Stylus 10600 plotters (44" wide) for digital proofing
Dedicated 2 terabyte RAID network storage
UPS power backup system for network and servers

Screen Department

2 Screen stretching tables (up to 222" x 72")
1 Automated screen coater (80" x 131")
1 Automated screen coater (80" x 100")
1 Computer to screen system (102" x 295")
1 Computer to screen system (102" x 216")
1 Fully-automatic screen developing and drying unit
1 Fully-automatic screen washing system with recycling and waste management functions

Ink Department

Computerized colour matching system
Computerized ink dispensing system
Computerized colour spectrophotometer

Screen Printing Department

1 Five-colour in-line screen printing press (cold uv) (59" x 86")
1 Four-colour in-line screen printing press (uv) (62" x 102")
1 Four-colour in-line screen printing press (uv) (61" x 84")
1 One-colour banner press (uv and conventional) (54" x 216")
1 One-colour banner press (uv and conventional) (54" x 216")
1 One-colour serifast (uv and conventional) (55" x 84")
1 One-colour serifast (uv and conventional) (54" x 72")

Shipping Department

Fleet of Artisan Complete 3 and 5 ton trucks with dispatch facilities

Recycling and Waste Management Facilities

80 Bentley Street

Front Office Facilities

Boardroom meeting facilities – broadband connection, telephone/online conference capabilities

Distribution Department

Storage racking

Digital Printing Department

2 Inca Onset digital flatbed press (uv) (126" x 60")

1 Digital die-cutter automated Zünd G3

Finishing Department

1 Digital die-cutter (118" x 86.5")

1 Computerized guillotine (up to 54")

331 Amber Street

Front Office Facilities

Boardroom meeting facilities – projection screen, broadband connection, telephone/online conference capabilities
Display showroom facilities

Graphic/Industrial Design

Latest generation Intel Macintosh workstations and design software packages
Best Color RIP driving Epson Stylus 7600 plotters (24" wide) for digital "spec" work
Dedicated 2 terabyte RAID network storage

Structural Design

PC hardware and design software packages
1 Cad operated sample plotter and die-line cutter tables (90" x 66")
1 Cad operated sample plotter and die-line cutter tables (66" x 120")

Digital Content Design

Latest generation Intel Macintosh workstations
Latest hardware and software in digital broadcasting design and animation
Dedicated 3 terabyte RAID network storage
Complete network management services including content development and health and well being monitoring
Online client access for direct file upload and download transferring

Corrugate Department

1 Two-colour printer slotter (50" x 103")
1 Four bar slitter (124")
1 Bandsaw
Gluing capabilities
Taping capabilities

Recycling and Waste Management Facilities

161 McPherson Street

Finishing Department

- 1 Platten die-cutter (63" x 100")
- 1 Platten heated plate die-cutter (57" x 80")
- 1 Platten heated plate die-cutter (38" x 50")
- 1 Computerized guillotine (up to 54")
- 1 Computerized guillotine (up to 65")
- 1 Computerized guillotine (up to 100")
- Mounting system (up to 60")
- Re-run die archiving facilities
- 2 Automated grommeting machines
- Litho labeling system (automatic mounter)
 - Label (10" x 6" min, 82" x 65" max)
 - Board (20" x 16" min, 120" x 80" max)
- Drilling capabilities
- Die alteration capabilities

Assembly Department (Additional/As Required)

- Team-line packing and assembly tables
- Piece-by-piece quality control inspection
- Heat sealing equipment
- Easelling equipment
- Bending equipment
- Tunnel shrink wrapping
- Gluing capabilities
- Taping capabilities

Shipping/Distribution Department

- Storage racking
- Pick & pack capabilities
- Co-packing facilities
- Fleet of Artisan Complete 3 and 5 ton trucks with dispatch facilities
- Transportation simulator and certified laboratory of the international safe transit association
- Electronic interface system for waybill generation and tracking equipped with dedicated carrier connections
- Distribution management

Recycling and Waste Management Facilities
