

Frequently Asked Questions (FAQs)

ALLEN JAYNE ENGLISH
owned by Lil Angel Education

Q: How is Allen Jayne English different from others?

A: One, our main teachers are highly qualified full timers with TESOL / TEFL certification. Being a full timer means they are able to monitor the progress of the students consistently in the long term, and having the proper certification means they have the proper knowledge in delivering quality education.

Two, we only use University of Cambridge recommended books which is in compliance with the Cambridge syllabus. In addition we also use supplementary Singaporean books when it comes to grammar to help our students better understand the lessons.

Three, we deliver English in fun and interesting way that students would enjoy their lessons so much so it builds up passion and interest among them. This way they will learn better without parents having to force them to study. This often leads to better result and happier students.

Q: How is the students' progress monitored?

A: Every lesson focuses around a different skill, namely Reading, Speaking, Listening and Writing, to ensure the students learn a balanced and complete English. Every 3 months, they will sit for an Internal Evaluation Test based on the 4 skills to find out how well they have learned in the class. Their results will be reviewed and monitored to make sure they progress consistently.

Q: Is there a replacement class when my kid is absent?

A: In cases of absence due to valid reasons, parents must communicate with us so that we can place your kid in another existing class of the same level for him/her to cope up with what she has missed. However since it is an existing class the lesson might vary slightly from her own. It is always advised that the number of absence be kept to minimum.
